Scheme- ICICI Prudential Gilt Fund – Treasury Plan

Schedule 9: Significant accounting policies and Notes forming part of the accounts for the year ended March 31, 2011

**A. Significant accounting policies**

1. The method of accounting is on accrual basis. The accounts are prepared as stipulated under SEBI Mutual Fund Regulations, 1996 wherein Cash Flow Statement and Segment Reporting are not required, accordingly Accounting Standard - 3 and Accounting Standard - 17 have not been considered as applicable to the scheme.

2. Investments

a) Purchase and sale of securities are accounted on trade dates. Cost of investments includes brokerage, stamps fees, transaction charges (Government securities) and any losses on account of immediate sale of non-convertible portion of debentures under "Khokha" buy-back scheme and excludes custodian fees. The cost is net of front-end fees and incentives. In case of devolvement, the cost is net of underwriting commission earned.

b) Valuation for Performing Investments:

For the purpose of the financial statements, the Fund marks all investments to market and carries investments in the Balance Sheet at the market value. Unrealised gain, if any, arising out of appreciation of the investments, is carried to the Balance Sheet.

- Traded debt and money market securities (other than Government Securities of over 91 days to maturity) are valued at the weighted average price at which they are traded on the particular valuation day. For this purpose securities traded on recognised stock exchanges are only considered.
- Non-traded /Thinly traded Debt and money market securities of upto 91 days of maturity are valued on the basis of amortisation (Cost plus accrued interest basis) as prescribed by SEBI.
- Non traded / Thinly traded debt and money market securities other than Government Securities of over 91 days to maturity are valued in good faith in accordance with SEBI guidelines. The valuation of non-traded debt securities is on yield to maturity basis. For this purpose the average of benchmark yields as provided by independent agencies, duly approved by AMFI is used.
- Interest rate swaps are valued on the basis of expected future cash inflows and outflows and the difference as compared to its cost is considered as unrealised appreciation/ depreciation.
- Traded / Non-traded / Thinly traded Government securities over 91 days to maturity are valued based on average of prices released by AMFI approved independent agencies.

c) An investment is regarded as non-performing, if interest/principal amount has not been received or has remained outstanding for one quarter from the day such income/instalment has fallen due.

d) Investments include contracts for purchase of securities and exclude contracts for sale of securities, for which deliveries are not received/collected.

*A*

### 3. Income Recognition

- a) Profit or loss on sale of investments is arrived at by applying weighted average cost on trade date.
- b) Interest on debentures and other fixed income investments is recognised on accrual basis.
- c) Income on non-performing assets (NPA) is recognised on cash basis.
- d) Other income of miscellaneous nature is accounted for when there is certainty of collection.

### 4. Income Equalisation Reserve and Unit Premium Reserve

In case of open-ended scheme, when units are purchased / sold by the Scheme at NAV based price, amount representing unrealised appreciation per unit is transferred to Unit Premium Reserve.

The balance amount of the purchase/sale price after reducing the face value of unit is transferred to Income Equalisation account and the net balance in this account is credited or debited to the Revenue Account at the year end.

Distributable surplus per unit is arrived after excluding both unit premium reserve and unrealised appreciation from NAV.

### 5. Provisions

Provision is made by charge to the Revenue Account, in respect of:

- a) Non Performing Debt Securities as per the Guidelines prescribed by SEBI.
- b) Interest Outstanding for more than one quarter beyond the due date.
- c) Securities where the certificates are not traceable for a protracted period.
- d) Assets other than investments, which in the opinion of the Trustees have suffered substantial impairment in their value.

### 6. Entry and Exit Load

- i) No entry load is charged on fresh purchase applications received after August 1, 2009.
- ii) Exit load charged above 1% is recognised as income of the scheme immediately.
- iii) Exit load charged upto 1% is utilised for meeting distribution & marketing expenses. Unutilised amount of load collected is carried forward to subsequent years unless the same is considered excess by the Trustees. In the event the load is considered excess by the Trustees, the same would be recognised as income.
