b) Bonus entitlements are recognized on ex-bonus dates.

c) Valuation for Performing Investments:

For the purpose of the financial statements, the Fund marks all investments to market and carries investments in the Balance Sheet at the market value. Unrealised gain, if any, arising out of appreciation of the investments, is carried to the Balance Sheet.

- Traded equity and equity related securities are valued at the closing traded price.
- Traded debt and money market securities (other than Government Securities of over 91 days to maturity) are valued at the weighted average price at which they are traded on the particular valuation day. For this purpose securities traded on recognised stock exchanges are only considered.

- Non traded / Thinly traded debt and money market securities other than Government Securities of over 91 days to maturity are valued in good faith in accordance with SEBI guidelines. The valuation of non-traded debt securities is on yield to maturity basis. For this purpose the average of benchmark yields as provided by independent agencies, duly approved by AMFI is used.
- Interest rate swaps are valued on the basis of expected future cash inflows and outflows and the difference as compared to its cost is considered as unrealised appreciation/ depreciation.
- Traded / Non-traded / Thinly traded Government securities over 91 days to maturity are valued based on average of prices released by AMFI approved independent agencies.
- American Depository Receipts and Global Depository Receipts are valued based on the closing prices at the Overseas Stock Exchange on which the respective securities are listed (applying prevailing Foreign Currency exchange rate).
- Equity Derivatives:  
In case of futures and options, change in the marked to market value of the contract is treated as unrealised gain/loss.

- d) An investment is regarded as non-performing, if interest/principal amount has not been received or has remained outstanding for one quarter from the day such income/instalment has fallen due.
- e) Investments include contracts for purchase of securities and exclude contracts for sale of securities, for which deliveries are not received/collected.

3. Income Recognition

- a) Dividend income is accrued on ex-dividend date.
- b) Profit or loss on sale of investments is arrived at by applying weighted average cost on trade date.
- c) Interest on debentures and other fixed income investments is recognised on accrual basis.
- d) Income on non-performing assets (NPA) is recognised on cash basis.
- e) Other income of miscellaneous nature is accounted for when there is certainty of collection.

4. Income Equalisation Reserve and Unit Premium Reserve

In case of open-ended scheme, when units are purchased / sold by the Scheme at NAV based price, amount representing unrealised appreciation per unit is transferred to Unit Premium Reserve.

The balance amount of the purchase/sale price after reducing the face value of unit is transferred to Income Equalisation account and the net balance in this account is credited or debited to the Revenue Account at the year end.

Distributable surplus per unit is arrived after excluding both unit premium reserve and unrealised appreciation from NAV.
