Dear Investor,

We thank you for your investments in ICICI Prudential Multi-Asset Fund (the Scheme).

We continue on our journey of striving to bridge the gap between savings and investments to help create long term wealth and value for our investors. In this regard, we are proposing to make a change in fundamental attributes of the Scheme. As an investor in the Scheme, we would like to share with you the changes so that you can take an appropriate and informed decision. These changes will be effective from April 01, 2019 (“Effective Date”).

The proposed changes are as follows:

<table>
<tr><th></th><th>Existing Provision</th><th>Revised Provision</th></tr>
<tr><td>Type of the Scheme</td><td>An open ended scheme investing in Equity, Debt, Gold/Gold ETF/units of REITs & InvITs and such other asset classes as may be permitted from time to time</td><td>An open ended scheme investing in Equity, Debt, Gold/Gold ETF/units of REITs & InvITs and other asset classes as may be permitted from time to time</td></tr>
<tr><td>Investment Objective</td><td>To generate capital appreciation and income for investors by investing across asset classes.

	The Scheme may also take exposure to: • Derivatives instruments up to 100% of the Net Assets. • ADR/GDR/Foreign securities/Overseas ETFs up to 50% of the Net Assets. Investments in ADR/GDR and foreign securities would be as per SEBI Circular dated September 26, 2007 as may be amended from time to time. • Securitised Debt up to 15% of the Net Assets or maximum permissible limit for debt portfolio, whichever is lower. • Stock lending up to 50% of its net assets. The Scheme shall also not lend more than 5% of its net assets to any single counter party. #subject to applicable SEBI limits. The Cumulative Gross Exposure across various asset classes will not exceed 100% of the Net Assets of the Scheme. In the event of variance in the asset allocation, the fund manager will carry out portfolio rebalancing within 30 Days. Further, in case the portfolio is not rebalanced within the period of 30 days, justification for the same shall be placed before the investment committee and reasons for the same shall be recorded in writing. The investment committee shall then decide on the course of action. In the event of variance in the asset allocation, the fund manager will carry out portfolio rebalancing within 30 Days. Further, in case the portfolio is not rebalanced within the period of 30 days, justification for the same shall be placed before the investment committee and reasons for the same shall be recorded in writing. The investment committee shall then decide on the course of action.
Investment Strategy	The Scheme proposes to invest across asset classes, in line with the asset allocation mentioned in the SID, with the aim of generating capital appreciation. With this aim the Investment Manager will allocate the assets of the Scheme between Equity, Debt, Gold/ Gold ETF/commodities and units of REITs & InvITs. The actual percentage of investment in the asset class will be decided after considering the prevailing market conditions, the macroeconomic environment (including interest rates and inflation), the performance of the corporate sector, the equity markets and general liquidity and other considerations in the economy and markets. The AMC may choose to continuously churn the portfolio of the Scheme in order to achieve the investment objective. The AMC will have the discretion to take aggressive asset calls i.e.	The Scheme proposes to invest across asset classes, in line with the asset allocation mentioned in the SID, with the aim of generating capital appreciation and income for investors. With this aim the Investment Manager will allocate the assets of the Scheme predominantly in Equity and equity related instruments, and remaining portion of the corpus in Debt, Gold/Gold ETF/commodities and units of REITs & InvITs and other asset classes as may be permitted by SEBI from time to time. The AMC shall maintain the gross equity exposure of the Scheme at 65% or above in line with the asset allocation. The actual percentage of investment in other asset classes will be decided after considering the prevailing market conditions, the macroeconomic environment (including interest rates and inflation), the performance of the corporate sector, the equity markets

	by staying 80% in an asset class and 10% at another or as per the view of the fund manager. Given the nature of the Scheme, the portfolio turnover ratio could be very high and AMC may change the full portfolio, commensurate with the investment objectives of the Scheme. The Scheme proposes to take long term call on stocks, which in an opinion of the Fund Manager offer better return over a long period. In stocks selection process, the AMC proposes to consider stocks with long-term growth prospects but currently trading at modest relative valuations. The Scheme proposes to concentrate on business and economic fundamentals driven by in-depth research techniques, employing strong stock selection. Stock-picking process proposed to be adopted is generally a "bottom-up" approach, seeking to identify companies with above average profitability supported by sustainable competitive advantages and also to use a "top-down" discipline for risk control by ensuring representation of companies from various industries. In case of Debt and Money Market securities, the Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same. The Schemes could invest in Fixed Income Securities issued by government, quasi	and general liquidity and other considerations in the economy and markets. The AMC may choose to continuously churn the portfolio of the Scheme in order to achieve the investment objective. 	government entities, corporate issuers, structured notes and multilateral agencies in line with the investment objectives of the Scheme and as permitted by SEBI from time to time. The scheme will also invest in the appropriate commodity or gold or gold ETF in order to achieve the investment objective. The scheme may also invest in Units issued by REITs & InvITs after doing due research on the same. Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments. The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other derivative instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt. For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustee. It is further proposed to enable the Scheme to write call options and to create segregated portfolio in case of a credit event. In view of the same, below mentioned provisions shall be inserted in the Scheme Information Document (SID) under the paragraphs 'Exposure to Derivatives', 'Scheme specific risk factors', 'Investment restrictions', 'Information about the Scheme', etc. as applicable.

1. 'COVERED CALL OPTION' STRATEGY

A call option gives the holder (buyer) the right but not the obligation to buy an asset by a certain date for a certain price. Covered calls are an options strategy where a person holds a long position in an asset and writes (sells) call options on that same asset.

1.1. Benefits of using Covered Call strategy in Mutual Funds:

The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. The strategy offers the following benefits:

a) Hedge against market risk - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the stock price would be lower to the extent of the premium earned from the call option.

b) Generating additional returns in the form of option premium in a range bound market.

Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction.

1.2. Risks for writing covered call options for equity shares

a) Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. This downside risk is reduced by writing covered call options.

b) The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the Scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the Scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.

c) The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the Scheme would be at a loss.

d) The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the Scheme. This may restrict the ability of Scheme to buy any options.

1.3. Investment Restrictions for Covered Call strategy

Mutual Fund schemes (excluding ETFs and Index funds) can write Call options under a covered strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

a) The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme.

b) The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the Scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.

c) At all points of time the Mutual Fund scheme shall comply with the provisions at points (a) and (b) above. In case of any passive breach of the requirement at paragraph (a) above, the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.

d) In case a Mutual Fund scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with paragraphs (a) and (b) above while selling the securities.

e) In no case, a scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.

f) The premium received shall be within the requirements prescribed in terms of SEBI circular dated August 18, 2010 i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the Scheme.

g) The exposure on account of the call option written under the covered call strategy shall not be considered as exposure in terms of paragraph 3 of SEBI Circular no. Cir/IMD/DF/11/2010, dated August 18, 2010.

h) The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the respective scheme(s) until the position is closed or expired.

2. SEGREGATION OF PORTFOLIOS

The AMC may create a segregated portfolio of debt and money market instruments in a mutual fund scheme in case of a credit event and to deal with liquidity risk.

In this regard, the term 'segregated portfolio' shall mean a portfolio comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme and the term 'main portfolio' shall mean the Scheme portfolio excluding the segregated portfolio. The term 'total portfolio' shall mean the Scheme portfolio including the securities affected by the credit event.

A segregated portfolio may be created in a mutual fund scheme in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

a. Downgrade of a debt or money market instrument to 'below investment grade', or

b. Subsequent downgrades of the said instruments from 'below investment grade', or

c. Similar such downgrades of a loan rating.

In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as detailed above and implemented at the ISIN level.

Below provisions shall be included in the Statement of Additional Information (SAI):

Process for creation of segregated portfolio:

1. The AMC shall decide on creation of segregated portfolio on the day of credit event, as per the process laid down below:

    i. The AMC shall seek approval of Trustees, prior to creation of the segregated portfolio.

    ii. The AMC shall immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. It shall also be disclosed that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of the AMC.

   iii. The AMC shall ensure that till the time the Trustee approval is received, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.

2. Upon receipt of approval from Trustees:
   i. The segregated portfolio shall be effective from the day of credit event
   ii. The AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
   iii. An e-mail or SMS should be sent to all unit holders of the concerned scheme.
   iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event.
   v. All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
   vi. No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.
3. If the trustees do not approve the proposal to segregate portfolio, the AMC shall issue a press release immediately informing investors of the same.
4. Notwithstanding the decision to segregate the debt and money market instrument, the valuation shall take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
5. All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:
   a. Upon trustees' approval to create a segregated portfolio -
      i. Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
      ii. Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
   b. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.
6. In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:
   a. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.
   b. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
   c. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
   d. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
   e. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance should clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.
   f. The disclosures at paragraph (d) and (e) above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.

g. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

7. In order to ensure timely recovery of investments of the segregated portfolio, the Trustees to the fund would continuously monitor the progress and take suitable action as may be required.

8. TER for the Segregated Portfolio

   a. AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.

   b. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.

   c. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.

   d. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Please note that the process followed by the AMC/Trust regarding creation of segregated portfolios shall be in accordance with the provisions laid down by SEBI from time to time.

Provisions related to change in Fundamental Attribute

A notice-cum-addendum detailing all the modifications is also available on the AMC's website i.e. www.icicipruamc.com.

While the Board of Trustees of ICICI Prudential Mutual Fund has approved the above change, we would request you to note that the aforesaid changes constitutes change in the fundamental attributes of the Scheme and requires compliance with Regulation 18(15A) of Securities and Exchange Board of India (Mutual Fund) Regulations, 1996 (the Regulations).

Securities and Exchange Board of India has communicated its no-objection for the above changes vide its letter no. IMD/DF3/OW/P/2019/5174/1 dated February 26, 2019.

In case you do not consent to the said change, you are entitled to exit the Scheme anytime between March 01, 2019 and March 30, 2019 (both days inclusive) at applicable NAV without any exit load, if any, by submitting a valid redemption / switch request at any Official Point of Acceptance of the Fund. In case you do not exercise the exit option on or before March 30, 2019, it will be deemed that you have consented to the said change. If the units are held in dematerialized form, investors are requested to contact their Depository Participant.

We hope that you will provide us your support; in case of any queries you can reach our call centre on 18002006666/1800222999. We assure you that the proposed change is in line with our best endeavors to serve you better.

We shall continue to work towards your investment success and keep you updated on our views in the future.

Yours sincerely,
