About ICICI Prudential Value Fund

- ICICI Prudential Value Fund is an equity scheme.
- The scheme follows a value investment style and intends to offer a diversified portfolio of stocks that have high potential but are quoting at a discount to their fair/intrinsic value.
- The scheme follows a bottom-up investment approach along with a blend of strategies like value.

Why ICICI Prudential Value Fund?

- The scheme is suitable for investors who are willing to participate in the process of discovering stocks which are undervalued but have the potential to do well due to strong fundamentals and those stocks which are likely to grow with the revival in economic growth.
- The scheme is suitable for investors who are willing to invest for a fairly long term with an aim to benefit from the full investment cycle and have over 5 years of investment horizon.
- Investors who are looking to invest in a diversified portfolio can consider this scheme for investing.

Portfolio Commentary

The scheme has increased its exposure to the Auto, Finance sectors since previous month.

We are relatively overweight is with respect to the benchmark on Pharma, Software and Oil, Gas & Petroleum Products sector (#Please refer to the disclaimer on last page)

Equity Market Outlook

Global Update: The S&P 500 experienced a powerful rally in April 2026, gaining over 10% for the month—its best performance since April 2020—driven by strong AI-related earnings, easing Middle East tensions, and falling oil prices. European markets experienced a strong, risk-on rally despite geopolitical turmoil, driven by renewed confidence, tech sector gains, and eased tensions between the US and Iran.

India Update: The Indian equity market declined for the fourth consecutive month as the West Asia conflict stoked a major FPI sell off. FPIs sold Rs. 60,847 crores in Apr 2026 compared to outflow of 1.17 lakh crore in Mar 2026. (Source: NSDL)

Market barometers BSE Sensex and NSE Nifty50 gained 6.9% and 7.5%, respectively, on-month in Apr 2026. Sector-wise, BSE Power (+22.2%), BSE Realty (+21.4%) and BSE Capital Goods (+20.2%) gained the most, whereas, BSE Infotech (+1.7%), BSE Healthcare (+6.8%) and BSE Oil & Gas (+8.3%) were laggards. (Source: BSE)

Our view going forward:

- Indian markets inched higher during the month driven primarily by DII buying momentum and gains in banking & financial sector stocks.
- The West-Asia conflict entered its 3rd month and it seems far from over. This continues to impact global supply chain with energy dependent countries seeking alternative sources.
- This has also impacted Indian rupee significantly as it touched 95.2 against the Dollar. Concerns around Current Account Deficit remain high as crude prices touched 108 USD/Barrel during the month.
- Structurally though, macros appear resilient – Fiscal Deficit is under control, demand environment is robust, rupee depreciation provides a boost to service exports which can cushion India's trade balance from supply side shocks.
- As per latest data by IMF, India's 2026 real GDP growth is projected at 6.5% in 2026 which continues to be high compared to major economies despite of on-going conflict.
- Given the uncertainty around conclusion of the conflict, we continue recommending investing in equities in a staggered manner through SIP/STP in schemes that have the flexibility to maneuver across sectors / market cap.
- Since market volatility may persist in the near term, we also continue to recommend investing in Hybrid / Asset Allocation schemes.

U.S. – United States of America; US Fed: Federal Reserve of US; FY: Financial year. FI – Foreign Portfolio Investor. AI – Artificial Intelligence.

Scheme Riskometer

Please note that the Risk-o-meter(s) specified above will be evaluated and updated on a monthly basis. The above riskometers are as on April 30, 2026. Please refer to <https://www.icicipruamc.com/news-and-updates/all-news> for more details

The name of the scheme has been changed to ICICI Prudential Value Fund with effect from June 16, 2025

*IDCW – Income Distribution cum Capital Withdrawal Option. Payment of IDCW is subject to availability of distributable surplus and Trustee approval. Pursuant to payment of IDCW, the NAV of the scheme falls to the extent of IDCW payout. When units are sold and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains. In case the unit holder has opted for IDCW payout option, the minimum amount for IDCW payout shall be 100 (net of dividend distribution tax and other statutory levy, if any), else the IDCW would be mandatorily reinvested.

IDCW Payout -Payout of Income Distribution cum capital withdrawal option; IDCW Reinvestment -Reinvestment of Income Distribution cum capital withdrawal option
