

About the Scheme

Launched on March 28, 2002, ICICI Prudential All Seasons Bond Fund is an open ended dynamic debt scheme investing across duration based on in-house CA Model (Current Account) model. The scheme intends to generate potential capital appreciation through active duration management.

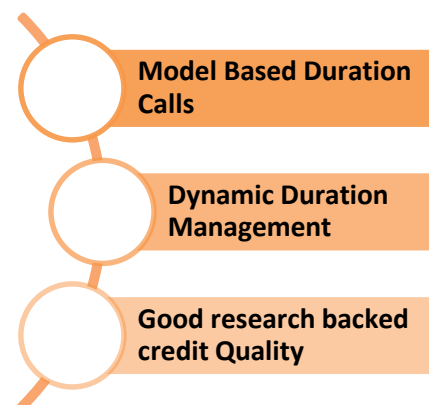

Investment Approach**

- Model Based Duration Calls: The Scheme uses an in-house CA model to take duration calls in the scheme.
- The index indicates the Current Account levels vs. historic average, a positive index indicates opportunity in duration and vice-versa.
- The Scheme will start increasing duration when index starts moving into positive territory and will reduce duration when index starts moving into negative territory.

Investment Style

Credit Quality			Duration
High	Medium	Low	
			Low
			Short
			Medium
			Medium to Long
			Long

Investment Approach

Why ICICI Prudential All Seasons Bond Fund?

- The Scheme intends to generate income through investing in a range of debt and money market instruments of various duration while maintaining the optimum balance of yield, safety and liquidity.
- The Scheme based on the In-House CA Model will aim to increase the duration when the current account deficit starts to come down and will aim to maintain low duration when the current account deficit starts increasing. This may help the scheme to benefit from interest rate volatility.
- Investors who wish to benefit from changing interest rate cycles with controlled interest rate risk may consider investing in this Scheme.

**Asset Allocation and Investment Strategy will be as per SID of the scheme.

*IDCW – Income Distribution cum Capital Withdrawal Option. Payment of IDCW is subject to availability of distributable surplus and Trustee approval. Pursuant to payment of IDCW, the NAV of the scheme falls to the extent of IDCW payout. When units are sold and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains. In case the unit holder has opted for IDCW payout option, the minimum amount for IDCW payout shall be 100 (net of statutory levy, if any), else the IDCW would be mandatorily reinvested. IDCW Payout -Payout of Income Distribution cum capital withdrawal option;IDCW Reinvestment - Reinvestment of Income Distribution cum capital withdrawal option.
