However, there can be no assurance or guarantee that the investment objective of the the Scheme will be realized.

LIQUIDITY

Repurchase facility

No redemption/repurchase of units shall be allowed prior to the maturity of this close-ended Scheme. Investors wishing to exit may do so, only in demat mode, by selling the units through BSE Ltd or any of the stock exchange(s) where the Scheme will be listed as the Trustee may decide from time to time.

BENCHMARK

Duration of the Scheme	Benchmark
91 days	CRISIL Liquid Debt Index

The composition of the aforesaid benchmarks is such that, it is most suited for comparing performance of the Scheme. The Trustees reserve the right to change the benchmark in future, if a benchmark better suited to the investment objective of the Scheme is available.

TRANSPARENCY/NAV DISCLOSURE

The AMC will calculate and disclose the first NAV within 5 business days from the date of allotment. Subsequently, the NAV will be calculated and disclosed at the close of every business day. The AMC shall prominently disclose the NAV of all schemes under a separate head on the AMC's website and on the website of AMFI.

AMC shall update the NAVs on the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) and AMC website (www.icicipruamc.com) by 11:00 p.m. on every Business Day. In case of any delay, the reasons for such delay would be explained to AMFI and SEBI by the next day. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.

The AMC shall disclose portfolio of the scheme (along with ISIN) as on the last day of the month / half-year on AMC's website i.e. www.icicipruamc.com and on the website of AMFI within 10 days from the close of each month / half-year respectively. Further, the AMC shall disclose portfolio of the scheme on a fortnightly basis within 5 days of every fortnight. Mutual Funds/ AMCs shall send the details of the scheme portfolio while communicating the fortnightly, monthly and half-yearly statement of scheme portfolio

via email or any other mode as may be communicated by SEBI/AMFI from time to time. The AMC shall provide a feature wherein a link is provided to the investors to their registered email address to enable the investor to directly view/download only the portfolio of schemes subscribed by the said investor. Since the Scheme is a new scheme, Top 10 holdings and sector wise holdings are not available.

The AMC shall publish an advertisement in all India edition of at least two daily newspapers, one each in English and Hindi, every half year disclosing the hosting of the half-yearly statement of the scheme's portfolio on the AMC's website and on the website of AMFI.

Risk-o-meter shall be evaluated on a monthly basis and Mutual Funds/AMCs shall disclose the Risk-o-meter along with portfolio disclosure for all their schemes on their respective website and on AMFI website within 10 days from the close of each month. Any change in risk-o-meter shall be communicated by way of Notice cum Addendum and by way of an e-mail or SMS to unitholders of that particular scheme.

The AMC shall send via email for the fortnightly statement of scheme portfolio within 5 days from the close of each fortnight and the monthly and half-yearly statement of scheme portfolio within 10 days from the close of each month / half-year respectively. The unitholders whose e-mail addresses are not registered with the Fund are requested to update / provide their email address.

The AMC shall provide a physical copy of the statement of scheme portfolio, without charging any cost, on specific request received from a unit holder.

LOAD STRUCTURE

Entry Load	Not Applicable. In terms of Clause 10.4.1 (a) of the Master Circular, SEBI has notified that there will be no entry load charged to the schemes of the Fund.
Exit Load	Since the Scheme will be listed on the stock exchange, exit load will not be applicable. Investors shall note that the brokerage on sales of the units of the Schemes on the stock exchanges shall be borne by the investors.

MINIMUM APPLICATION AMOUNT

Rs. 5,000 & in multiples of Rs.10 thereafter.

Minimum application amount for switch in is Rs. 5000 and any amount thereafter.

MATURITY

The Scheme will have duration up to 91 days from the date of allotment. The Scheme shall be fully redeemed/switched-out at the end of the maturity period. If the maturity date falls on a non-business day, the immediately following business day will be considered as the maturity date for the Scheme.

On maturity of the Scheme, the outstanding units shall either be redeemed and proceeds will be paid to the unitholder or will be switched-out to any existing open ended scheme or in ongoing NFOs of schemes of ICICI Prudential Mutual Fund (the Fund) in the

respective options, as opted by the unitholder, as the case may be. If the investor does not select any of the aforesaid options then the units will be redeemed by default.

Units held in Demat form: The switch option/facility as mentioned above shall not be applicable for Units held in Demat form. Maturity proceeds would be payable to investors as per the bank details provided in beneficiary position received from respective depositories.

The Trustee reserve the right to suspend/deactivate/freeze trading, ISIN of the Scheme, subject to SEBI Regulations. With respect to closure of the Scheme at the time of maturity, trading of units on stock exchange will automatically get suspended from the effective date mentioned in the notice. The proceeds on maturity will be payable to the persons whose names are appearing in beneficiary position as received from depositories after the suspension/deactivation /freezing of ISIN.

The decision of the Trustee in this regard shall be final. On payment of IDCW, the NAV will stand reduced by the amount of IDCW and dividend tax (if applicable) paid.

I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the Scheme may go up or down.
- Past performance of the Sponsor/AMC/Mutual Fund and their associates does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 22.2 lacs made by it towards setting up the Fund and such other accretions and additions to the corpus set up by the Sponsors.
- The present Scheme is not a guaranteed or assured return Scheme.
- The Scheme does not in any manner indicate either the quality of the Scheme or their future prospects and returns.
- The NAVs of the Scheme may be affected by changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors and trading volumes, settlement periods and transfer procedures.
- The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
- Investors in the Scheme are not being offered any guaranteed/indicated returns.
- Mutual funds being vehicles of securities investments are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Schemes. The various factors which impact the value of the Plan's investments include, but are not limited to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws in various countries, liquidity of the underlying instruments, settlement periods, trading volumes overseas etc.
- Different types of securities in which the Scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities.
- Two-Factor Authentication and Third – Party Payments will be carried out in line with paragraph 16.5 of the Master Circular and any further clarifications received by AMFI and SEBI in this regard.
- Infectious Illness Risk: An outbreak of an infectious illness, caused by a novel virus may result in travel restrictions, disruption of healthcare systems, prolonged quarantines, cancellations, supply chain disruptions, lower consumer demand, layoffs, ratings downgrades, defaults and other significant economic impacts. Certain markets may experience temporary closures, extreme volatility, severe

losses, reduced liquidity and increased trading costs. Such events can have an impact on the underlying Scheme and could impact their ability to purchase or sell securities or cause elevated tracking error and increased premiums or discounts to the NAV.

- **Cybersecurity Risk:** The Scheme is susceptible to operational, information security and related “cyber” risks both directly and through external stakeholders. Similar types of cybersecurity risks are also present for issuers of securities in which the Scheme invests, which could result in material adverse consequences for such issuers and may cause the Scheme’s investment in such issuers to lose value. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber incidents include, but are not limited to, gaining unauthorized access to digital systems (e.g., through “hacking” or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyberattacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Geopolitical tensions may increase the scale and sophistication of deliberate attacks, particularly those from nation-states or from entities with nation-state backing. Cybersecurity failures by, or breaches of, the systems of the external stakeholders (including, but not limited to, index and benchmark providers, fund accountants, custodians, RTA, etc.), have the ability to cause disruptions and impact business operations.

While there may be business continuity plans in the event of, and risk management systems to prevent, such cyber incidents, there are inherent limitations in such plans and systems, including the possibility that certain risks have not been identified, that prevention and remediation efforts will not be successful or that cyberattacks will go undetected.

Scheme Specific Risk Factors and Risk management strategies

Some of the specific risk factors related to the Scheme include, but are not limited to the following:

Risks associated with investing in Fixed Income Securities:

- **Market Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in fixed income securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- **Credit Risk:** Investments in fixed income securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- **Price Risk:** Government securities where a fixed return is offered run price-risk like

any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.

- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- **Risks associated with investment in unlisted securities:** Except for any security of an associate or group company, the scheme has the power to invest in securities which are not listed on a stock exchange (“unlisted Securities”) which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the Scheme will realize their investments in unlisted securities at a fair value. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.
- **Settlement risk:** The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Schemes’ portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in the Schemes’ portfolio.
- **Different types of fixed income securities in which the Scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk.** Accordingly, the Scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities.
- **The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields.** This may increase the absolute level of risk of the portfolio.
- **As zero coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates.** Therefore, the interest rate risk of zero coupon securities is higher. The AMC

may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.

- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.
- Investment in unrated instruments may involve a risk of default or decline in market value higher than rated instruments due to adverse economic and issuer-specific developments. Such investments display increased price sensitivity to changing interest rates and to a deteriorating economic environment. The market values for unrated investments tends to be more volatile and such securities tend to be less liquid than rated debt securities.
- Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Schemes.

Risks associated with investing in Tri Party Repo through CCIL (TREPS)

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the “Default Waterfall”.

As per the waterfall mechanism, after the defaulter’s margins and the defaulter’s contribution to the default fund have been appropriated, CCIL’s contribution is used to meet the losses. Post utilization of CCIL’s contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for

contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

Risk Factors associated with schemes investing in Gilt Securities

Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in prices is a function of the existing coupon, days to maturity and the increase or decrease in interest rates. Price-risk is not unique to government securities but is true for all fixed income securities. The default risk however, in respect of Government securities is zero. Therefore, their prices are influenced only by movement in interest rates in the financial system. On the other hand, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced by credit standing of the issuer as well as the general level of interest rates.

Even though the Government securities market is more liquid compared to other fixed income instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.

Risk associated with close ended Schemes:

A close ended Scheme endeavours to achieve the desired returns only at the scheduled maturity of the Scheme. Investors who wish to exit/redeem before the scheduled maturity date may do so through the stock exchange mode, if they have opted to hold Units in a demat form, by mentioning their demat details on the NFO application form. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. Hence, Unit Holders who sell their Units in a Scheme prior to maturity may not get the desired returns.

Although the securities in the portfolio will have high market liquidity, there is a possibility that market liquidity could get impacted on account of company/sector/general market related events and there could be a price impact at maturity while liquidating the portfolio.

Risk associated with Investing in money market instruments:

- a. Interest Rate risk: This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The values of investments will appreciate/depreciate if the interest rates fall/rise.
- b. Credit risk: This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest.
- c. Liquidity risk: The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.

Risk Factors associated with investing in Securitized Debt:

A securitization transaction involves sale of receivables by the originator (a bank, non-banking finance company, housing finance company, microfinance companies or a manufacturing/service company) to a Special Purpose Vehicle (SPV), typically set up in the form of a trust. Investors are issued rated Pass Through Certificates (PTCs), the proceeds of which are paid as consideration to the originator. In this manner, the originator, by selling his loan receivables to an SPV, receives consideration from investors much before the maturity of the underlying loans. Investors are paid from the collections of the underlying loans from borrowers. Typically, the transaction is provided with a limited amount of credit enhancement (as stipulated by the rating agency for a target rating), which provides protection to investors against defaults by the underlying borrowers. Generally available asset classes for securitization in India are:

- Commercial vehicles
- Auto and two wheeler pools
- Mortgage pools (residential housing loans)
- Personal loan, credit card and other retail loans
- Corporate loans/receivables
- Microfinance receivables

In pursuance to SEBI communication dated: August 25, 2010, given below are the requisite details relating to investments in Securitised debt.

- Risk profile of securitized debt vis-à-vis risk appetite of the scheme:

Securitized debt instruments are relatively illiquid in the secondary market and hence they are generally held to maturity which would match with the long-term investment horizon of these investors. Investment in these instruments will help the fund in aiming at reasonable returns. These returns come with a certain degree of risks which are covered separately in the Scheme Information Document. Accordingly, the medium risk profile of the securitised debt instruments matches that of the prospective investors of these funds.

- Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc.
- Risk mitigation strategies for investments with each kind of originator

For a complete understanding of the policy relating to selection of originators, we have first analysed below risks attached to a securitization transaction.

In terms of specific risks attached to securitization, each asset class would have different underlying risks, however, residential mortgages are supposed to be having lower default rates as an asset class. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher, which helps in making their overall risks comparable to other AAA/AA rated asset classes.

The Scheme may invest in securitized debt assets. These assets would be in the nature of Asset Backed securities (ABS) and Mortgage Backed securities (MBS) with underlying pool of assets and receivables like housing loans, auto loans and single corporate loan originators. The Scheme intends to invest in securitized instruments rated AAA/AA by a SEBI recognized credit rating agency.

Before entering into any securitization transaction, the risk is assessed based on the information generated from the following sources:

- (1) Rating provided by the rating agency
- (2) Assessment by the AMC

(1) Assessment by a Rating Agency

In its endeavor to assess the fundamental uncertainties in any securitization transaction, a credit rating agency normally takes into consideration following factors:

Credit Risk:

Credit risk forms a vital element in the analysis of securitization transaction. Adequate credit enhancements to cover defaults, even under stress scenarios, mitigate this risk. This is done by evaluating following risks:

- Asset risk
- Originator risk
- Portfolio risk
- Pool risks

The quality of the pool is a crucial element in assessing credit risk. In the Indian context, generally, pools are 'cherry-picked' using positive selection criteria. To protect the investor from adverse selection of pool contracts, the rating agencies normally take into consideration pool characteristics such as pool seasoning (seasoning represents the number of installments paid by borrower till date: higher seasoning represents better quality), over dues at the time of selection and Loan to Value (LTV). To assess its risk profile vis-à-vis the overall portfolio, the pool is analyzed with regard to geographical location, borrower profile, LTV, and tenure.

Counterparty Risk:

There are several counterparties in a securitization transaction, and their performance is crucial. Unlike in the case of credit risks, where the risks emanate from a diversified pool of retail assets, counterparty risks result in either performance or non-performance. The rating agencies generally mitigate such risks through the usage of stringent counterparty selection and replacement criteria to reduce the risk of failure. The risks assessed under this category include:

- Servicer risk
- Commingling risk
- Miscellaneous other counterparty risks

Legal Risks:

The rating agency normally conducts a detailed study of the legal documents to ensure that the investors' interest is not compromised and relevant protection and safeguards

are built into the transaction.

Market Risks:

Market risks represent risks not directly related to the transaction, but other market related factors, stated below, which could have an impact on transaction performance, or the value of the investments to the investors.

- Macro-economic risks
- Prepayment risks
- Interest rate risks

Other Risks associated with investment in securitized debt and mitigation measures

Limited Liquidity and Price Risk:

There is no assurance that a deep secondary market will develop for the Certificates. This could limit the ability of the investor to resell them.

Risk Mitigation: Securitized debt instruments are relatively illiquid in the secondary market and hence they are generally held to maturity. The liquidity risk and HTM nature is taken into consideration at the time of analyzing the appropriateness of the securitization.

Limited Recourse, Delinquency and Credit Risk:

The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and do not represent an obligation of either the Issuer or the Seller or the originator, or the parent or any associate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts to the Certificate Holders may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Servicer may repossess and sell the Asset. However, many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realise the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

Risk Mitigation: In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained to ensure that they all qualify for similar rating.

Risks due to possible prepayments: Weighted Tenor / Yield

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments Full prepayment of underlying loan contract may arise under any of the following circumstances;

- Obligor pays the Receivable due from him at any time prior to the scheduled maturity date of that Receivable; or
- Receivable is required to be repurchased by the Seller consequent to its inability to

- rectify a material misrepresentation with respect to that Receivable; or
- The Servicer recognizing a contract as a defaulted contract and hence repossessing the underlying Asset and selling the same
- In the event of prepayments, investors may be exposed to changes in tenor and yield.

Risk Mitigation: A certain amount of prepayments is assumed in the calculations at the time of purchase based on historical trends and estimates. Further a stress case estimate is calculated and additional margins are built in.

Bankruptcy of the Originator or Seller:

If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale then an Investor could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction so as to minimize the risk of the sale to Trust not being construed as a "True Sale". Legal opinion is normally obtained to the effect that the assignment of Receivables to Trust in trust for and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

Risk Mitigation: Normally, specific care is taken in structuring the securitization transaction so as to minimize the risk of the sale to the trust not being construed as a 'true sale'. It is also in the interest of the originator to demonstrate the transaction as a true sell to get the necessary revenue recognition and tax benefits.

Bankruptcy of the Investor's Agent:

If Investor's agent becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of Investor's Agent to the assets/receivables is not in its capacity as agent/Trustee but in its personal capacity, then an Investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent. Legal opinion is normally obtained to the effect that the Investors Agent's recourse to assets/receivables is restricted in its capacity as agent and trustee and not in its personal capacity.

Risk Mitigation: All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent.

Credit Rating of the Transaction / Certificate:

The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling:

With respect to the Certificates, the Servicer will deposit all payments received from the Obligors into the Collection Account. However, there could be a time gap between collection by a Servicer and depositing the same into the Collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of originator. If originator in its capacity as Servicer fails to remit such funds due to Investors, the Investors may be exposed to a potential loss.

(2) Assessment by the AMC

Mapping of structures based on underlying assets and perceived risk profile

The scheme will invest in securitized debt originated by Banks, NBFCs and other issuers of investment grade credit quality and established track record. The AMC will evaluate following factors, while investing in securitized debt:

Originator:

Acceptance Evaluation Parameters (For Pool Loan and Single Loan Securitization Transactions)

Track record:

The AMC ensures that there is adequate past track record of the Originator before selection of the pool including a detailed look at the number of issuances in past, track record of issuances, experience of issuance team, etc.

Willingness to pay:

As the securitized structure has underlying collateral structure, depending on the asset class, historical NPA trend and other pool / loan characteristics, a credit enhancement in the form of cash collateral, such as fixed deposit, bank, guarantee etc. is obtained, as a risk mitigation measure.

Ability to pay:

This assessment is based on a strategic framework for credit analysis, which entails a detailed financial risk assessment.

Management analysis is used for identifying company specific financial risks. One of the most important factors for assessment is the quality of management based on its past track record and feedback from market participants. In order to assess financial risk a broad assessment of the issuer's financial statements is undertaken to review its ability to undergo stress on cash flows and asset quality. Business risk assessment, wherein following factors are considered:

- Outlook for the economy (domestic and global)
- Outlook for the industry
- Company specific factors

In addition, a detailed review and assessment of rating rationale is done including interactions with the company as well as agency.

Critical Evaluation Parameters (For Pool Loan and Single Loan Securitization

Transactions)

Typically, the AMC would avoid investing in securitization transaction (without specific risk mitigant strategies / additional cash/security collaterals/ guarantees) if there are concerns on the following issues regarding the originator / underlying issuer:

- High default track record/ frequent alteration of redemption conditions / covenants
- High leverage ratios – both on a standalone basis as well on a consolidated level/ group level
- Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be
- Higher proportion of overdue assets of the pool or the underlying loan, as the case may be
- Poor reputation in market
- Insufficient track record of servicing of the pool or the loan, as the case may be.

Advantages of Investments in Single Loan Securitized Debt

- Wider Coverage: A Single Loan Securitized Debt market offers a more diverse range of issues / exposures as the Banks / NBFCs lend to larger base of borrowers.
- Credit Assessment: Better credit assessment of the underlying exposure as the Banks / NBFCs ideally co-invest in the same structure or take some other exposure on the same borrower in some other form.
- Better Structuring: Single Loan Securitized Debt investments facilitates better structuring than investments in plain vanilla debt instruments as it is governed by Securitization guidelines issued by RBI.
- Better Legal documentation: Single Loan Securitized Debt structures involve better legal documentation than Non-Convertible Debenture (NCD) investments.
- End use of funds: Securitized debt has better standards of disclosures as well as limitation on end use of funds as compared to NCD investments wherein the end use is general corporate purpose.
- Yield enhancer: Single Loan Securitized Debt investments give higher returns as compared to NCD investments in same corporate exposure.
- Regulator supervision: Macro level supervision from RBI in Securitization Investments as compared to NCD investments.
- Tighter covenants: Single Loan Securitized Debt structures involve tighter financial covenants than NCD investments.

Disadvantages of Investments in Single Loan Securitized Debt

- Liquidity risk: Investments in Single Loan Securitized Debts have relatively less liquidity as compared to investments in NCDs.
- Co-mingling risk: Servicers in a securitization transaction normally deposit all payments received from the obligors into a collection account. However, there could be a time gap between collection by a servicer and depositing the same into the collection account. In this interim period, collections from the loan agreements by the servicer may not be segregated from other funds of the servicer. If the servicer fails to remit such funds due to investors, investors in the Scheme may be exposed to a potential loss.

Table below illustrates the framework that will be applied while evaluating investment decision relating to a pool securitization transaction:

Characteristics/Type of Pool	Mortgage Loan	Commercial Vehicle and Construction Equipment	CAR	2 wheelers	Micro Finance Pools	Personal Loans
Approximate Average maturity (in Months)	36-144 months	12- 60 months	12-60 months	15-48 months	15-80 weeks	5 months -3 years
Collateral margin (including cash ,guarantees, excess interest spread , subordinate tranche)	3-10%	4-12%	4-13%	4-15%	5-15%	5-15%
Average Loan to Value Ratio	75%-95%	80%-98%	75%-95%	70%-95%	Unsecured	Unsecured
Average seasoning of the Pool	3-5 months	3-6 months	3-6 months	3-5 months	2-7 weeks	1-5 months
Maximum single exposure range	4-5%	3-4%	NA (Retail Pool)	NA (Retail Pool)	NA (Very Small Retail loan)	NA (Retail Pool)
Average single exposure range %	0.5%-3%	0.5%-3%	<1% of the Fund size	<1% of the Fund size	<1% of the Fund size	<1% of the Fund size

Notes:

1. Retail pools are the loan pools relating to Car, 2 wheeler, micro finance and personal loans, wherein the average loan size is relatively small and spread over large number of borrowers.
2. Information illustrated in the Tables above, is based on the current scenario relating to Securitized Debt market and is subject to change depending upon the change in the related factors.
3. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments
4. Majority of our securitized debt investments shall be in asset backed pools wherein we'll have underlying assets as Medium and Heavy Commercial Vehicles, Light Commercial Vehicles (LCV), Cars, and Construction Equipment etc. Where we invest in Single Loan Securitization, as the credit is on the underlying issuer, we focus on the credit review of the borrower. A credit analyst sets up limit for various issuers based on independent research taking into account their historical track record, prevailing rating and current financials.

In addition to the framework as per the table above, we also take into account following factors, which are analyzed to ensure diversification of risk and measures identified for less diversified investments:

- Size of the Loan:

We generally analyze the size of each loan on a sample basis and analyze a static pool of the originator to ensure the same matches the Static pool characteristics. Also

indicates whether there is excessive reliance on very small ticket size, which may result in difficult and costly recoveries. To illustrate, the ticket size of housing loans is generally higher than that of personal loans. Hence in the construction of a housing loan asset pool for say Rs.1,00,00,000/- it may be easier to construct a pool with just 10 housing loans of Rs.10,00,000 each rather than to construct a pool of personal loans as the ticket size of personal loans may rarely exceed Rs.5,00,000/- per individual. Also to amplify this illustration further, if one were to construct a pool of Rs.1,00,00,000/- consisting of personal loans of Rs.1,00,000/- each, the larger number of contracts (100 as against one of 10 housing loans of Rs.10 lakh each) automatically diversifies the risk profile of the pool as compared to a housing loan based asset pool.

- **Average Original Maturity of the Pool:**

Indicates the original repayment period and whether the loan tenors are in line with industry averages and borrower's repayment capacity. To illustrate, in a car pool consisting of 60-month contracts, the original maturity and the residual maturity of the pool viz. number of remaining installments to be paid gives a better idea of the risk of default of the pool itself. If in a pool of 100 car loans having original maturity of 60 months, if more than 70% of the contracts have paid more than 50% of the installments and if no default has been observed in such contracts, this is a far superior portfolio than a similar car loan pool where 80% of the contracts have not even crossed 5 installments.

- **Default Rate Distribution:**

We generally ensure that all the contracts in the pools are current to ensure zero default rate distribution. Indicates how much % of the pool and overall portfolio of the originator is current, how much is in 0-30 DPD (days past due), 30-60 DPD, 60-90 DPD and so on. The rationale here being, as against 0-30 DPD, the 60-90 DPD is certainly a higher risk category.

- **Geographical Distribution:**

Regional/state/ branch distribution is preferred to avoid concentration of assets in a particular region/state/branch.

- **Loan to Value Ratio:**

Indicates how much % value of the asset is financed by borrower's own equity. The lower LTV, the better it is. This Ratio stems from the principle that where the borrowers own contribution of the asset cost is high, the chances of default are lower. To illustrate for a Truck costing Rs.20 lakhs, if the borrower has himself contributed Rs.10 lakh and has taken only Rs.10 lakh as a loan, he is going to have lesser propensity to default as he would lose an asset worth Rs.20 lakhs if he defaults in repaying an installment. This is as against a borrower who may meet only Rs.2 lakh out of his own equity for a truck costing Rs.20 lakh. Between the two scenarios given above, the latter would have higher risk of default than the former.

- **Average seasoning of the pool:**

Indicates whether borrowers have already displayed repayment discipline. To illustrate, in the case of a personal loan, if a pool of assets consist of those who have already repaid 80% of the installments without default, this certainly is a superior asset pool than

one where only 10% of installments have been paid. In the former case, the portfolio has already demonstrated that the repayment discipline is far higher.

- Risk Tranching:

Typically, we would avoid investing in mezzanine debt or equity of Securitized debt in the form of sub ordinate tranche, without specific risk mitigant strategies / additional cash / security collaterals/ guarantees, etc.

- The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund

Investments made by the scheme in any asset are done based on the requirements of the scheme and is in accordance with the investment policy. All Investments are made entirely at an arm's length basis with no consideration of any existing / consequent investments by any party related to the transaction (originator, issuer, borrower etc.). Investments made in Securitized debt are made as per the Investment pattern of the Scheme and are done after detailed analysis of the underlying asset. There might be instances of Originator investing in the same scheme but both the transactions are at arm's length and avoid any conflict of interest. In addition to internal controls in the fixed income investment process, there is regular monitoring by the compliance team, risk management group, and internal review teams. Normally the issuer who is securitizing instrument is in need of money and is unlikely to have long term surplus to invest in mutual fund scheme.

- In general, the resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt

The risk assessment process for securitized debt, as detailed in the preceding paragraphs, is same as any other credit. The investments in securitized debt are done after appropriate research by credit analyst. The ratings are monitored for any movement. Monthly Pool Performance MIS is received from the trustee and is analyzed for any variation. The entire securitized portfolio is published in the fact sheet and disclosed in the website with details of underlying exposure and originator.

Note: The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

Risks associated with Investing in Structured Obligation (SO) / Credit Enhancement (CE) rated securities:

- The risks factors stated below for the Structured Obligations are in addition to the risk factors associated with debt instruments.
- Credit rating agencies assign an SO rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking from another entity. This entity could be either related or non-related to

the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, asset backed/ mortgage backed securities, securitized paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc. Additionally, certain issuances where cash flows are escrowed and used in a predetermined manner are also considered as Structured Obligations. Hence, for SO rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating.

- **Liquidity Risk:** SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the structured nature of SO securities, the liquidity in the market for these instruments is adversely affected compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold.
- **Credit Risk:** The credit risk of debt instruments which are SO rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to ability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. Therefore, apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

5 Risk Factors associated with investment in Derivatives:

1. The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
2. The Fund may use derivatives instruments like Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.
3. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
4. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.
5. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.
6. The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

- Lack of opportunity available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
- Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged
- Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss, and might materially impact returns.

Risk factors with respect to imperfect hedging using interest rate futures

An Interest Rate Futures is an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange traded. These future contracts are cash settled.

1. Perfect Hedging means hedging the underlying using IRF contract of same underlying.
2. Imperfect hedging means the underlying being hedged and the IRF contract has correlation of closing prices of more than 90%.

In case of imperfect hedging, the portfolio can be a mix of:

- 1) Corporate Bonds and Government securities or
- 2) Only Corporate debt securities or
- 3) Only government securities with different maturities

Risk associated with imperfect hedging includes:

Basis Risk: The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.

Price Risk: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk of mismatch between the instruments: The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example, when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.

Correlation weakening and consequent risk of regulatory breach: SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90 day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 working days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

Risk factors associated with creation of segregated portfolios:

1. Liquidity risk – A segregated portfolio is created when a credit event occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is

created, running the risk of investors being unable to redeem their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event.

Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that a deep secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them.

2. Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

Risk management strategies: The Scheme by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in fixed income securities markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Scheme has identified following risks of investing in fixed income securities and have designed risk management strategies, which are embedded in the investment process to manage such risks.

Risk & Description specific to fixed income securities	Risk mitigants / management strategy
<p><u>Market Risk/ Interest Rate Risk</u> As with all fixed income securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian fixed income markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p>	<p>The Scheme will invest in a basket of securities maturing on or before maturity of the Scheme with a view to hold them till the maturity of the Scheme. While the interim NAV may fluctuate in response to changes in interest rates, the final NAV would not get materially impacted by changes in the interest rate during the tenure of the scheme.</p>
<p><u>Liquidity or Marketability Risk</u> This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).</p>	<p>While the liquidity risk for low maturity government securities and, money market instruments may be low, it may be high in case of medium to long maturity.</p> <p>The Scheme will however, endeavor to minimize liquidity risk by investing in securities having a relatively liquid market.</p>
<p><u>Credit Risk</u> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).</p>	<p>Management analysis may be used for identifying company specific risks. Management's past track record may also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements may be undertaken.</p>
<p><u>Reinvestment Risk</u> This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	<p>Reinvestment risks will be limited to the extent of coupons received on fixed income instruments, which may be a very small portion of the portfolio value.</p>

Derivatives Risk

As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Interest Rate Swaps will be done with approved counter parties under pre-approved ISDA agreements. Interest rate swaps and other derivative instruments will be used as per RBI and SEBI regulatory guidelines.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Plan. These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme shall be wound up in accordance with Regulation 39(2)(c) of SEBI (Mutual Funds) Regulations, 1996 automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 5 business days of the date of closure of the New Fund Offer.

C. SPECIAL CONSIDERATIONS, if any

Any tax liability arising post maturity on account of change in the tax treatment with respect to dividend distribution tax, by the tax authorities, shall be solely borne by the investor and not by the AMC, the Trustees or the Mutual Fund.

- Investors in the Scheme are not being offered any guaranteed returns.
- The AMC is also engaged in portfolio management services (PMS) since October 2000 under SEBI Registration No. INP000000373. The AMC is also rendering Non-binding Advisory Services for such categories of SEBI registered foreign portfolio investors (FPIs) which are listed in the Master Circular dated May 19, 2023. The AMC is also providing investment management services to Alternative Investment Funds registered under SEBI (Alternative Investment Funds) Regulations, 2012. Further, the AMC shall also provide investment management services, including dealing services to Offshore Funds from India in accordance with Regulation 24(b) of SEBI (Mutual Funds) Regulation, 1996. The AMC is also registered with United States Securities and Exchange Commission as an Investment Adviser under Investment Adviser Act 1940. The AMC has a common research team. These activities are not in conflict with

the activities of the Mutual Fund. In the situations of unavoidable conflicts of interest, the AMC undertakes that it shall satisfy itself that adequate disclosures are made of sources of conflict, potential material risk or damage' to investor interest and develop parameters for the same.

- The Mutual Fund may disclose details of the investor's account and transactions thereunder to those intermediaries whose stamp appears on the application form. In addition, the Mutual Fund may disclose such details to the bankers / its agents, as may be necessary for the purpose of effecting payments to the investor. Further, the Mutual Fund may disclose details of the investor's account and transactions thereunder to any Regulatory/Statutory entities as per the provisions of law.
- Investors are advised to consult their Legal /Tax and other Professional Advisors in regard to tax/legal implications relating to their investments in the Scheme and before making decision to invest in or redeem the Units.
- In view of the individual nature of the tax consequences, each investor is advised to consult his/ her own professional tax advisor to determine possible legal, tax, financial or other considerations for subscribing and/or redeeming the Units and/or before making a decision to invest/ redeem Units. The tax information contained in SID/SAI alone may not be sufficient and should not be used for the development or implementation of an investment strategy or construed as investment advice. Investors alone shall be fully responsible/ liable for any investment decision taken on the basis of this document.
- Neither the Mutual Fund nor the AMC nor any person connected with it accepts any liability arising from the use of this information. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Schemes are wound up for the reasons and in the manner provided in SAI.
- Redemption by the Unit holder either due to change in the fundamental attributes of the Scheme(s) or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise.
- Investors are advised to rely upon only such information and/or representations as contained in this SID. Any subscription or redemption made by any person on the basis of statements or representations which are not contained in this SID or which are inconsistent with the information contained herein shall be solely at the risk of the Investor. The Investor is required to confirm the credentials of the individual/firm he/she is entrusting his/her application form along with payment instructions for any transaction in the Scheme(s). The Mutual Fund/ Trustee/AMC shall not be responsible for any acts done by the intermediaries representing or purportedly representing such Investor.
- Mutual funds investments are subject to market risks and the Investors should review/study this SID, the SAI and the addenda thereto issued from time to time carefully in its entirety before investing and should not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation or financial/investment matters. There can be no assurance or guarantee that the Scheme objectives will be achieved and the investment decisions made by the AMC may not always be profitable.
- The AMC may freeze/lock the folio(s) of investor(s) / Unitholder(s) for further transactions or reject any applications for subscription or redemption of units pursuant to receipt of instructions/directions/orders issued by any Governmental, judicial, quasi-judicial or other similar authority (Authority), including orders restricting the investor

(s)/Unitholder(s) from dealing in securities or for attachment of units held by the investor(s)/Unitholder(s).

- The Product labelling mandated by SEBI is to provide investors an easy understanding of the risk involved in the kind of product / scheme they are investing to meet their financial goals. The Riskometer categorizes various schemes under different levels of risk based on the investment objective, asset allocation pattern, investment strategy and typical investment time horizon of investors. Therefore, the schemes falling under the same level of risk in the Riskometer may not be similar in nature. Investors are advised before investing to evaluate a Scheme not only on the basis of the Product labeling (including the Riskometer) but also on other quantitative and qualitative factors such as performance, portfolio, fund managers, strategy, asset allocation, investment objective etc. and shall seek appropriate advise, if they are unsure about the suitability of the Scheme before investing. As per SEBI Guidelines, Riskometers shall be reviewed on a monthly basis based on evaluation of risk level of Scheme's month end portfolios. Notice about changes in Riskometers, if any, shall be issued. Investors may refer to the website for any change in Riskometers.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

A Close – Ended income scheme maturing on June 12, 2024[^]. A relatively low interest rate risk and relatively low credit risk.

[^] Subject to date of allotment of the units.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The investment objective of the Scheme is to seek to generate income by investing in a portfolio of fixed income securities/ debt instruments maturing on or before the maturity of the Scheme.

However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation of the Scheme and the credit rating of the instruments would be as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Maximum	Minimum	High/Medium/Low
Money Market Instruments, Debt Instruments* including Government Securities	100	0	Low to medium

Note:

Derivative positions for other than hedging purposes shall be upto 50% of total assets of each plan of the scheme. The Scheme may also undertake derivative positions for hedging purposes. The cumulative gross exposure through investment in debt (including CD, CP, NCD, Securitized Debt, Government Securities/ Treasury Bills) + money market instruments + derivatives (fixed income) (excluding Cash or cash equivalents with residual maturity of less than 91 days) shall not exceed 100% of net assets of each plan of the Scheme. Security wise hedge positions using derivatives such as Interest Rate Swaps, etc. will not be considered in calculating above exposure. The exposure to derivatives will be restricted to hedging and portfolio rebalancing as specified under clause 12.25 of the Master Circular and such other guidelines on derivatives as issued by SEBI from time to time.

*If the Scheme decides to invest in securitized debt (Single loan and / or Pool loan Securitized debt), it could be up to 25% of the corpus of the Scheme.

*In accordance with the provisions of paragraph 12.3 of the SEBI Master Circular dated May 19, 2023, if the Scheme decides to invest in Structured Obligation/ Credit enhancement (other than securitized debt instruments, as defined in SEBI (Public Offer and Listing of Securitized Debt Instruments) Regulations 2008, investment by the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme:

- a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and
- b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.

The cumulative gross exposure through debt and money market instruments and other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time, subject to prior approval from SEBI, if any should not exceed 100% of the net assets of the scheme.

The exposure to unrated papers would not exceed 5% of the net assets of the scheme.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. AMFI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities.

Rebalancing in case of active breach

The above investment pattern is indicative and may be changed by the Fund Manager for a short term period on defensive considerations pursuant to paragraph 1.14.1.2 of SEBI Master Circular for mutual funds dated May 19, 2023 keeping in view market conditions, market opportunities, legislative amendments and other political and economic factors. The intention being at all times to seek to protect the interests of the Unit Holders. In the event of any deviation from the asset allocation as stated above, the Fund Manager shall review and rebalance the portfolio within 30 calendar days from the date of such deviation.

Rebalancing in case of passive breach

In accordance with the Master circular dated May 19, 2023, in the event of deviation from the mandated asset allocation stated above due to passive breaches rebalancing of the scheme would be done within Thirty (30) business days.

In case the portfolio of the scheme is not rebalanced as per the above timeline, the AMC would place an update thereof before the Executive Equity Investment Committee/Debt Investment Committee as may be applicable. The Executive Equity Investment Committee/Debt Investment Committee as may be applicable, if so desires, can extend the timeline up to Sixty (60) business days from the date of completion of mandated rebalancing period.

The AMC shall comply with the provisions of the applicable regulatory guidelines for all reporting and disclosure requirements, etc. as may be specified from time to time.

The Scheme may take exposure to Debt Instruments including Government Securities and Money Market instruments, to meet the liquidity requirements, in line with the limits mentioned above.

The detailed asset allocation basis the tenure of the Scheme with disclosures of allocation is given below:

Credit Rating	AAA#/A1+ (%)
Instruments	
Certificate of Deposit	40-50
Commercial Paper	55-60
Non-Convertible Debentures	0-5

#Or equivalent short term rating.

The aforesaid floors and ceilings within a range of 5% of the intended allocation (%) against each sub asset class/credit rating.

In accordance with AMFI letter and AMFI clarification dated October 4, 2023 and October 13, 2023, respectively, disclosures in respect of the Indicative portfolio or yield is as follows:

1. Securities with rating A and AA shall include A+ and A- & AA+ and AA- respectively.
2. Positive variation in investment towards higher credit rating in the same instrument shall be allowed.
3. In case of non-availability of and taking into account the risk-reward analysis of CPs, NCDs (including securitised debt), the scheme may invest in CDs and TREPS having equivalent or higher ratings.
4. At the time of building up the portfolio post NFO and towards the maturity of the Scheme, there may be a higher allocation to cash and cash equivalents.
5. Subsequent to the initial portfolio construction, during the tenure of the Scheme, the above allocation may vary due to instances like coupon inflow, the instrument is called or bought back by the issuer, in anticipation of any adverse credit event, etc.
6. All investment shall be made based on the rating prevalent at the time of investment. However, in case of an instrument having dual ratings, the most conservative publicly available rating would be considered.
7. Disclosures w.r.t. investment in unrated securities, derivatives, etc. if any.
8. In the event of any deviations from the floor and ceiling of credit ratings specified for any instrument, the same shall be rebalanced within 30 calendar days from the date of the said deviation.

Point 8 on rebalancing within 30 calendar days is applicable only in case of deviations from the floor and ceiling of credit ratings specified for any instrument, due to reasons other than those mentioned in points 1 to 6.

The above investment pattern is indicative and may be changed by the Fund Manager for a short term period on defensive considerations pursuant to SEBI Circular no. dated May 19, 2023 keeping in view market conditions, market opportunities, applicable SEBI (Mutual Funds) Regulations 1996, legislative amendments and other political and economic factors, the intention being at all times to seek to protect the interests of the Unit Holders. In the event of any deviation from the asset allocation under defensive consideration, the Fund Manager shall review and rebalance the portfolio within 30 calendar days from the date of such deviation.

Credit Evaluation Policy for investment in debt securities

The AMC aims to identify securities, which offer optimal levels of yield at lower levels of risks so the investment process is firmly research oriented. It comprises qualitative as

well as quantitative measures. Qualitative factors like management track record, group companies, resource-raising ability, extent of availability of banking lines, internal control systems, etc. are evaluated in addition to the business model and industry within which the issuer operates as regards industry/model-specific risks working capital requirements, cash generation, seasonality, regulatory environment, competition, bargaining power, etc. Quantitative factors like debt to equity ratio, profit and loss statement analysis, balance sheet analysis are taken into further consideration.

Macroeconomic call is taken on interest rate direction by careful analysis of various influencing factors like Inflation, Money supply, Private sector borrowing, Government borrowing, currency market movement, Central Bank policy, local fiscal and monetary policy, global interest rate scenario and Market sentiment. Interest rate direction call is supplemented by technical analysis of market and short term influencing factors like trader position, auction/issuance of securities, release of economic numbers, offshore market position, etc. Interest rate direction call and anticipation of yield curve movement forms the basis of portfolio positioning in duration and spread terms. Credit research is done on a regular basis for corporate having high investment grade rating. Credit research includes internal analysis of rating rationale, and financial statements (annual reports and quarterly earnings statements) of the issuer, for the last 1-3 years evaluating amongst other metrics, relevant ratios of profitability, capital adequacy, gearing, turnover and other inputs from external agencies. On an ongoing basis, the credit analyst keeps track of credit profile of the issuer, possible credit risks reflected in change in outlook of rating agencies, external developments affecting the issuer etc. Internal credit call is a pre-requisite for all investments since the investment universe is primarily high-grade credit instruments. Credit research is also used to minimize credit migration risk and for generating relative value trade ideas. Stable to higher rating on maturity vis-à-vis issuance is the guiding factor for investment decisions from credit point of view.

D.WHERE WILL THE SCHEME INVEST?

Subject to the Regulations and the disclosures as made under the section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

1. Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills);
2. Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills);

6. Securities Lending and borrowing
7. Debt Instruments with special features (AT1 and AT2 Bonds)
8. REITs and InvITs
9. Equity and equity related instruments
10. Units of Mutual Fund Schemes

Apart from the above investment restrictions, the Fund follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc, within the above mentioned restrictions, and these are subject to review from time to time.

The investors/unit holders can ascertain details of asset allocation of the Scheme as on the last date of each month on AMC's website at www.icicipruamc.com.

POSITION OF DEBT MARKET IN INDIA

Indian debt markets, in the early nineties, were characterised by controls on pricing of assets, segmentation of markets and barriers to entry, low levels of liquidity, limited number of players, near lack of transparency, and high transactions cost. Financial reforms have significantly changed the Indian debt markets for the better. Most debt

instruments are now priced freely on the markets; trading mechanisms have been altered to provide for higher levels of transparency, higher liquidity, and lower transactions costs; new participants have entered the markets, broad basing the types of players in the markets; methods of security issuance, and innovation in the structure of instruments have taken place; and there has been a significant improvement in the dissemination of market information. There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitized Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers.

The yields and liquidity on various securities as on February 29, 2024 are as under:

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 Days	6.90	High
GOI	Treasury Bill	364 Days	7.09	High
GOI	Short Dated	1-3 Years	7.03 – 7.06	High
GOI	Medium Dated	3-5 Years	7.06	High
GOI	Long Dated	5-10 Years	7.06 – 7.08	High
Corporates	Taxable Bonds (AAA)	1-3 Years	7.73 – 7.83	Medium
Corporates	Taxable Bonds (AAA)	3-5 Years	7.69 – 7.73	Low to Medium
Corporates	CDs (A1+)	3 months	7.75	Medium to High
Corporates	CPs (A1+)	3 months	8.39	Medium to High

PROVISIONS RELATING TO SEGREGATION OF PORTFOLIOS

In order to ensure fair treatment to all investors in case of a Credit Event and to deal with liquidity risk, paragraph 4.4 of Master Circular has allowed creation of Segregated Portfolio of debt and money market instruments by mutual fund schemes.

The AMC may create a segregated portfolio of debt and money market instruments in a mutual fund scheme in case of a credit event and to deal with liquidity risk.

In this regard, the term 'segregated portfolio' shall mean a portfolio comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme and the term 'main portfolio' shall mean the scheme portfolio excluding the segregated portfolio. The term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.

The AMC at its discretion, subject to SEBI Regulations, may create Segregated Portfolio in the Scheme, with the approval of the Trustees, subject to the following:

A segregated portfolio may be created in a mutual fund scheme in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- a. Downgrade of a debt or money market instrument to 'below investment grade', or

- b. Subsequent downgrades of the said instruments from 'below investment grade', or
- c. Similar such downgrades of a loan rating.

In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as detailed above and implemented at the ISIN level.

In terms of SEBI Circular November 7, 2019, segregated portfolio may be created of unrated debt or money market instruments by mutual fund schemes of an issuer that does not have any outstanding rated debt or money market instruments. Such segregated portfolio can be created only in case of actual default of either the interest or principal amount.

Process for creation of segregated portfolio

1. The AMC shall decide on creation of segregated portfolio on the day of credit event, as per the process laid down below:
 - i. The AMC shall seek approval of Trustees, prior to creation of the segregated portfolio.
 - ii. The AMC shall immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. It shall also be disclosed that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of the AMC. (icicipruamc.com)
 - iii. The AMC shall ensure that till the time the Trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
2. Upon receipt of approval from Trustees:
 - i. The segregated portfolio shall be effective from the day of credit event
 - ii. The AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
 - iii. An e-mail or SMS should be sent to all unit holders of the concerned scheme.
 - iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event.
 - v. All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
 - vi. No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.
3. If the trustees do not approve the proposal to segregate portfolio, the AMC shall issue a press release immediately informing investors of the same.

Valuation and processing of subscriptions and redemptions

1. Notwithstanding the decision to segregate the debt and money market instrument, the valuation shall take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
2. All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:
 - a. Upon trustees' approval to create a segregated portfolio -
 - i. Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
 - ii. Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
 - b. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

Periodic Disclosures:

In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:

- a. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.
- b. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
- c. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
- d. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
- e. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance should clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.
- f. The disclosures at paragraph (d) and (e) above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.
- g. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

In order to ensure timely recovery of investments of the segregated portfolio, the Trustees to the Fund would continuously monitor the progress and take suitable action as may be required.

3. TER for the Segregated Portfolio

- a. AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- b. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
- c. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- d. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Investors may also note that the process followed by the AMC/Trust regarding creation of segregated portfolios shall be in accordance with the provisions laid down by SEBI in this regard, from time to time.

Benefits and Features of Creation of Segregated Portfolio:

- 1) Creation of Segregated portfolio helps ensuring fair treatment to all investors in case of a credit event and helps in managing liquidity risk during such events;
- 2) Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio;
- 3) Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV;
- 4) A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio;
- 5) Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme; and
- 6) The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

Total		700,000	2,80,000	9,80,000

Notes:

- Investors who invest / subscribe to the units of the Scheme post creation of segregated portfolio shall be allotted units in the Main Portfolio only.
- Investors redeeming their units post creation of segregated portfolio will get redemption proceeds based on NAV of main portfolio and will continue to hold units in Segregated portfolio.
- No redemption and / or subscription shall be allowed in the Segregated Portfolio.
- Units of Segregated portfolio shall be listed on a recognised stock exchange.

Monitoring by Trustees

In order to ensure timely recovery of investments of the segregated portfolio, trustees shall ensure that:

- a. The AMC puts in sincere efforts to recover the investments of the segregated portfolio.
- b. Upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.

- c. An Action Taken Report (ATR) on the efforts made by the AMC to recover the investments of the segregated portfolio is placed in every trustee meeting till the investments are fully recovered/ written-off.
- d. The trustees shall monitor the compliance of this circular and disclose in the half-yearly trustee reports filed with SEBI, the compliance in respect of every segregated portfolio created.

In order to avoid mis-use of segregated portfolio, trustees shall ensure to have a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the scheme.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme is an actively managed Close-ended Debt Scheme. The Scheme will invest in a basket of permissible securities maturing on or before maturity of the Scheme. The Scheme will invest in securities with a view to hold them till the maturity. To that effect the Plan will follow a buy and hold strategy to investment. The scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. The Scheme shall invest in Debt securities including Government Securities and Money Market Instruments which offer optimal level of yields/returns, considering risk-reward ratio. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks.

With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

The Scheme could invest in Fixed Income Securities issued by government, quasi government entities, corporate issuers, in line with the investment objectives of the Scheme and as permitted by SEBI from time to time.

The Scheme may adopt various approaches including STRIPS or any other approach as may be available/permitted by RBI/SEBI.

The Scheme may also invest in unrated securities.

Debt Derivatives

The Scheme may use derivatives instruments like Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time for the purpose that may be permitted by SEBI Mutual Fund regulations from time to time.

i) Advantages of Derivatives

The volatility in Indian debt markets has increased over last few months. Derivatives provide unique flexibility to the Scheme to hedge part of their portfolio. Some of the advantages of specific derivatives are as under:

ii) Interest Rate Swaps and Forward rate Agreements

Interest rate swap is a strategy in which one party exchanges a stream of interest for another party's stream. Interest rate swaps are normally 'fixed against floating', but can also be 'fixed against fixed' or 'floating against floating' rate swaps. Interest rate swaps will be used to take advantage of interest-rate fluctuations, by swapping fixed-rate obligations for floating rate obligations, or swapping floating rate obligations to fixed-rate obligations.

The following is an illustration how derivatives broadly work

Basic Details: Fixed to floating swap

Notional Amount: Rs. 5 Crores

Benchmark: NSE MIBOR

Deal Tenor: 3 months (say 91 days)

Documentation: International Securities Dealers Association (ISDA).

Let us assume the fixed rate decided was 10%

At the end of three months, the following exchange will take place:

Counter party 1 pays: compounded call rate for three months, say 9.90%

Counter party 2 pays fixed rate: 10%

In practice, however, the difference of the two amounts is settled. Counter party 2 will pay Rs. 5 Crores $\times 0.10\% \times 91/365 = \text{Rs. } 12,465.75$

Thus the trade off for the Fund will be the difference in call rate and the fixed rate payment and this can vary with the call rates in the market. Please note that the above example is given for illustration purposes only and the actual returns may vary depending on the terms of swap and market conditions.

Bond markets in India are not very liquid. Investors run the risk of illiquidity in such markets. Investing for short-term periods for liquidity purposes has its own risks. Investors may benefit if the Fund remains in call market/ overnight instruments for the liquidity and at the same time take advantage of fixed rates by entering into a swap (i.e. paying floating rate of interest against receipt of fixed rate of interest). It adds certainty to the returns without sacrificing liquidity.

Mutual Fund Schemes can enter into IRS contracts either over the counter with a counter party or through an electric trading platform offered by Clearing Corporation of India Ltd (CCIL), where CCIL is considered as central counterparty.

Risk Factor: The risk arising out of uses of the above derivative strategy as under:

- Lack of opportunities available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity. Additional risks could be on account of illiquidity and potential mis-pricing of the options.

iii) Interest Rate Futures:

IRF means a standardized interest rate derivative contract traded on a recognized stock exchange to buy or sell a notional security or any other interest bearing instrument or an index of such instruments or interest rates at a specified future date, at a price determined at the time of the contract.

Hedging using interest rate futures could be perfect or imperfect, subject to applicable regulations. Currently, exchange traded Interest Rate Futures traded on exchange are standardized contracts based on 10-Year Government of India Security and 91 day Treasury bill. IRF contracts are cash settled.

IRFs give an opportunity in the fixed income market to hedge interest rate risk or rebalance the portfolio by using them. By locking into a price, the IRF contract can help to eliminate the interest rate risk. Thus, in order to protect against a fall in the value of the portfolio due to falling bond prices, one can take short position in IRF contracts.

Example:

Date: April 01, 2022

Spot price of the Government Security: Rs.108.83

Price of IRF– April contract: Rs. 108.90

On April 01, 2022, Fund buys 1000 units of the Government security from the spot market at Rs. 108.83. Subsequently, it is anticipated that the interest rate will rise in the near future. Therefore to hedge the exposure in underlying Government security, Fund sells April 2022 Interest Rate Futures contracts at Rs. 108.90.

On April 15, 2022 due to increase in interest rate:

Spot price of the Government Security: Rs. 107.24

Futures Price of IRF Contract: Rs.107.30

Loss in underlying market will be $(107.24 - 108.83) \times 1000 = (\text{Rs. } 1,590)$

Profit in the Futures market will be $(107.30 - 108.90) \times 1000 = \text{Rs. } 1,600$

Illustration for Imperfect Hedging

Scenario 1 and 2

Assumption: Portfolio whose duration is 3 years, is being hedged with an IRF whose underlying securities duration is 10 years

Portfolio Duration: 3 year
Market Value of Portfolio: Rs 100 cr
Imperfect Hedging cannot exceed 20% of Portfolio

Maximum extent of short position that may be taken in IRFs is as per below mentioned formula:

Portfolio (security) Modified Duration * Market Value of Portfolio (security) / (Futures Modified Duration * Futures Price/PAR)

Consider that we choose to hedge 20% of portfolio
 $(3 * (0.2 * 100))/(10 * 100/100) = \text{Rs } 6 \text{ cr}$

So we must Sell Rs 6 cr of IRF with underlying duration of 10 years to hedge Rs 20 cr of Portfolio with duration of 3 years.

Scenario 1

If the yield curve moves in a way that the 3 year moves up by 10 bps and the 10 year moves up by 5bps, which means that the short end has moved up more than the long end.

Amount of Security in Portfolio (LONG): Rs 20cr

If yields move up by 10 bps then the price of the security with a modified duration of 3 years will move down by;

Formula: (Yield movement * Duration) * Portfolio Value
 $((0.001 * 3) * 20,00,00,000) = - 6,00,000$

Underlying IRF (SHORT): Rs 6crs

If yields move up by 5bps then the price of the security with a duration of 10 years will move down by;

Formula: (Yield movement * Duration) * Portfolio Value
 $(-0.0005 * 10) * 6,00,00,000 = 3,00,000$

Since we have sold the IRF, this movement is positive and hence the total loss will be reduced to:

$-6,00,000 + 3,00,000 = -3,00,000$

Due to IRF, the overall impact on the portfolio due to interest rate movement has been reduced.

Scenario 2

If the yield curve moves in a way that the 3 year does not move and the 10 year moves down by 5 bps, which means that the yield curve has flattened.

If yield does not move then the price of the security with a duration of 3 years will remain flat:

Formula: (Yield movement * Duration) * Portfolio Value
 $(0 * 3) * 20,00,00,000 = 0$

Underlying IRF (SHORT): Rs 6cr

If yields moves down by 5bps then the price of the security with a duration of 10 years

will move up by;
 $(0.0005 \times 10) \times 6,00,00,000 = -3,00,000$

In this scenario, the imperfect hedge created on the portfolio would create a loss on the total position.

Risk associated with imperfect hedging:

Basis Risk: The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.

Price Risk: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk of mismatch between the instruments: The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.

Correlation weakening and consequent risk of regulatory breach: SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90 day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 working days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

Valuation of Derivative Products

1. The traded derivatives shall be valued at market price in conformity with the valuation policy of the Mutual Fund.
2. The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the SEBI (Mutual Funds) Regulations, 1996 as amended from time to time.

For details on applicable limits pertaining to derivatives, please refer section 'What are the investment restrictions?'

Investment by the AMC

In terms of sub-regulation 16(A) in Regulation 25 of SEBI Regulations, the asset management companies are required to invest such amount in such scheme of the

mutual fund, based on the risk associated with the respective scheme. Accordingly, the AMC shall make investment in the Scheme as per the provisions of paragraph 6.9 of the Master Circular.

Further, from time to time and subject to the regulations, the sponsors, the mutual funds and investment Companies managed by them, their associate companies, subsidiaries of the sponsors and the AMC may invest in either directly or indirectly in the Scheme. The funds managed by these associates and/ or the AMC may acquire a substantial portion of the Scheme. Accordingly, redemption of units held by such funds, associates and sponsors may have an adverse impact on the units of the Scheme because the timing of such redemption may impact the ability of other unit holders to redeem their units. Further, as per the regulation, in case the AMC invests in any of the schemes managed by it, it shall not be entitled to charge any fees on such investments.

The Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds, provided it is in conformity to the investment objective of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

F: FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) subject to compliance with sub-regulation (26) of regulation 25 of the SEBI (Mutual Funds) Regulations, 1996:

"Fundamental Attributes" in the context of the scheme will be:

- (i) Type of Scheme: a close-ended income Scheme
- (ii) A) Investment objective: Please refer to section "Investment objective" in this document.
B) Investment Pattern: Please refer to section "How will the scheme allocate its assets?" in this document.
- (iii) Terms of Issue:
 - A] Liquidity provisions such as listing, repurchase, redemption: The units of the Scheme are proposed to be listed on the BSE. However the Trustee reserves the right to list the units of the respective plan on any other Stock Exchange without any change in the Fundamental Attribute.
 - B] Aggregate fees and expenses charged to the Scheme: The provisions in respect of fees and expenses are as indicated in this SID. Please refer to section "Fees and Expenses" in this document.
 - C] Any safety net or guarantee provided: The present scheme is not a guaranteed or assured return scheme

Changes in Fundamental Attribute:

In accordance with Regulation 18(15A) of the SEBI (Mutual Funds) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme or the trust or fee and expenses payable or any other change which would modify the Scheme and affect the interests of Unitholders is carried out by the asset management company, unless it complies with sub-regulation (26) of regulation 25 of these regulations.

In accordance to regulation 25(26) of the SEBI (MF) Regulations, the Asset management company shall ensure that no change in the fundamental attributes of any scheme or the trust, fees and expenses payable or any other change which would modify the scheme and affect the interest of unit holders, shall be carried out unless:

- An application has been made with SEBI and views/comments of SEBI are sought on the proposal for fundamental attribute changes;
- An addendum to the existing SID shall be issued and displayed on AMC website immediately,
- SID shall be revised and updated immediately after completion of duration of the exit option (not less than 30 days),
- A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated, and the Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Duration of the Scheme	Benchmark
91 days	CRISIL Liquid Debt Index

CRISIL Liquid Debt Index seeks to track the performance of a debt portfolio that includes Tri-party Repo, Commercial Papers and Certificates of Deposit. CRISIL Liquid Fund Index is a composition of CRISIL Overnight Index, CRISIL 2 Months CP Index, CRISIL 2 Months CD Index, CRISIL 3 Months CP Index, CRISIL 3 Months CD Index.

The composition of the aforesaid benchmarks is such that, it is most suited for comparing performance of the Scheme. The Trustees reserves the right to change the benchmark in future, if a benchmark better suited to the investment objective of the Plan is available subject to applicable provisions of SEBI Regulations.

H. WHO MANAGES THE SCHEME?

The investments under the Scheme will be managed by Mr. Rohan Maru and Mr. Nikhil Kabra. Since the Scheme is a new Scheme, tenure of Fund Managers is not available. Their qualifications and experience are as under:

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

Pursuant to the Regulations and amendments thereto and subject to the Asset allocation pattern, the following investment restrictions are presently applicable to the Scheme:

1. Mutual Funds/AMCs shall ensure that total exposure of debt schemes of mutual funds in a particular sector (excluding investments in Bank CDs, Tri-party Repo, G-Secs, TBills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme;

Provided that an additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed only by way of increase in exposure to Housing Finance Companies (HFCs).

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB).

Provided further that an additional exposure of 5% of the net assets of the scheme shall be allowed for investments in securitized debt instruments based on retail

housing loan portfolio and/or affordable housing loan portfolio.

However, the overall exposure in HFCs shall not exceed the sector exposure limit of 20% of the net assets of the scheme.

2. Mutual fund schemes shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

Provided further that mutual fund schemes shall comply with the norms under this clause within the time and in the manner as may be specified by the Board:

Provided further that the norms for investments by mutual fund schemes in unrated debt instruments shall be specified by the Board from time to time.

For the above purposes, listed debt instruments shall include listed and to be listed debt instruments. Similarly, investments in CPs shall be in listed or to be listed CPs.

3. The investment of mutual fund schemes in the following instruments shall not exceed 10% of the debt portfolio of the schemes and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the schemes
 - a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and
 - b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.
4. a) A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act as per the following matrix.

A mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

b) Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and TREPs:

c) Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

d) In terms of the Asset Allocation of the Scheme, the Scheme may invest upto 5% of its total assets in Money market instruments including TREPs.

5. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - i. Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - ii. The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, contained in Statement of Additional Information. The AMC shall comply with the guidelines as stated in paragraph 12.30 of the Master Circular.

6. The Scheme may invest in any other scheme under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund.
7. The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
8. The Fund may buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities.

Provided that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

9. No loans for any purpose can be advanced by any of the Scheme.
10. The Scheme shall not make any investments in;
 - a. any unlisted security of an associate or group company of the sponsor; or
 - b. any security issued by way of private placement by an associate or group

- company of the Sponsor; or
- c. the listed securities of group companies of the Sponsor which is in excess of 25% of its net assets
- d. Fund of Funds scheme

11. The Scheme shall invest only in such securities which mature on or before the date of the maturity of the Scheme.
12. The Mutual Fund/AMC shall make investment out of the NFO proceeds only on or after the closure of the NFO period. The Mutual Fund/ AMC can however deploy the NFO proceeds in Tri-party Repo before the closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in Tri-party Repo during the NFO period. The appreciation received from investment in Tri-party Repo shall be passed on to the investors under the Plan.

Further, in case the minimum subscription amount is not garnered by the scheme during the NFO period, the interest earned upon investment of NFO proceeds in Tri-party Repo shall be returned to investors, in proportion of their investments, along with the refund of the subscription amount.

13. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest and dividend to the Unitholders. Such borrowings shall not exceed 20% of the net assets of the individual scheme and the duration of the borrowing shall not exceed a period of 6 months.
14. The Scheme will comply with provisions specified in paragraph 12.25 of the Master Circular related to overall exposure limits applicable for derivative transactions as stated below:
 1. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
 2. Mutual Funds shall not write options or purchase instruments with embedded written options.
 3. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
 4. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
 5. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - i. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - ii. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point (a).
 - iii. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - iv. The quantity of underlying associated with the derivative position taken for hedging purpose does not exceed the quantity of the existing position against which hedge has been taken.
 6. (a) Mutual Funds may enter into plain vanilla Interest Rate Swaps (IRS) for hedging purposes. The value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme.

(b) In case of participation in IRS is through over the counter transactions, the counter party has to be an entity recognized as a market maker by RBI and exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point (a) above.

7. Definition of Exposure in case of Derivative Positions - Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option Bought	Option Premium Paid * Lot Size * Number of Contracts

Exposure limit for participating in Interest Rate Futures as per paragraph 12.25.9 of the Master Circular:

- i. To reduce interest rate risk in a debt portfolio, mutual funds may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Future Price/ PAR})}$$

- ii. In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.

iii. Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:

a) Exposure to IRFs is created only for hedging the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.

b) Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged portions, if any) and the IRF is atleast 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure. 0. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

- i. The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or
- ii. The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.

c) At no point of time, the net modified duration of part of the portfolio being hedged should be negative.

d) The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure. iv. The basic characteristics of the scheme should not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.

Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.

v. The interest rate hedging of the portfolio should be in the interest of the investors.

15. Pending deployment of funds of the Schemes in terms of the investment objective of the Schemes, the Mutual Fund may invest them in short term deposits of scheduled commercial banks in accordance with paragraph 12.16 of the Master Circular, following guidelines shall be followed for parking of funds in short term deposits of Scheduled commercial Banks pending deployment
- a. "Short Term" for such parking of funds by mutual funds shall be treated as a period not exceeding 91 days.
 - b. Such short-term deposits shall be held in the name of the Scheme.
 - c. The Scheme shall not park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
 - d. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - e. The Schemes shall not park funds in short-term deposit of a bank, which has invested in that scheme.
 - f. The aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash and derivatives market.
16. The Scheme shall not invest more than 5% of its net assets in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. All such investments shall be made with the prior approval of the Board of Trustees and the Board of AMC.

Investments should only be made in such instruments, including bills re-discounting,

usage bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.

17. All transactions in government securities shall be in dematerialised form.

18. Group exposure –

- a) The Fund shall ensure that total exposure of the debt scheme in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 10% of the net assets of the Scheme. Such investment limit may be extended to 15% of the net assets of the Scheme with the prior approval of the Board of Trustees.
- b) For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 (Regulations) and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

19. a. On monthly basis, Mutual Funds shall undertake minimum 25% of their total secondary market trades by value (excluding Inter Scheme Transfer trades) in Corporate Bonds by placing/seeking quotes through one-to-many mode on the Request for Quote (RFQ) platform of stock exchanges and

b. On monthly basis, Mutual Funds shall undertake minimum 10% of their total secondary market trades by value (excluding Inter Scheme Transfer trades) in Commercial Papers by placing/seeking quotes through one-to-many mode on the Request for Quote (RFQ) platform of stock exchanges.

c. All transactions in Corporate Bonds and Commercial Papers wherein Mutual Fund is on both sides of the trade shall be executed through RFQ platform of stock exchanges in one-to-one mode.

All investment restrictions shall be applicable at the time of making investment.

IDCW Policy	IDCW, if declared, will be paid (subject to deduction of tax at source, if any) to those Unit holders whose names appear in the Register of Unit holders on the record date. In case of Units held in			

	<p>dematerialized mode, the Depositories (NSDL/CDSL) will give the list of demat account holders and the number of Units held by them in electronic form on the Record date to the Registrars and Transfer Agent of the Mutual Fund. Further, the Trustee at its sole discretion may also declare interim IDCW, subject to SEBI Regulations. However, it must be distinctly understood that the actual declaration of IDCW and the frequency thereof will inter-alia, depend on the availability of distributable profits as computed in accordance with SEBI Regulations. The decision of the Trustee in this regard shall be final. On payment of IDCW, the NAV will stand reduced by the amount of IDCW and dividend tax (if applicable) paid.</p> <p>The treatment of unclaimed redemption & IDCW amount shall be as per paragraph 14.3 of the Master circular.</p> <p>Equalisation Reserve:</p> <p>When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.</p>
IDCW	<p>The IDCW payments shall be dispatched to the unit holders within 7 working days from the record date.</p> <p>In the event of failure to dispatch IDCW within 7 working days, the AMC shall be liable to pay interest at 15% per annum to the unit holders.</p> <p>With respect to payment of interest in the event of failure of dispatch of IDCW payments within the stipulated regulatory time period, the interest for the delayed payment of IDCW shall be calculated from the record date.</p>
IDCW Transfer	<p>This facility will be available under the Scheme whereby if the investor opts for this facility, the IDCW declared will be automatically invested into any open-ended scheme (Target Scheme) of the Fund. The amount to the extent of distribution will be automatically invested on the ex-dividend date into the Target Scheme selected by the investor, at the applicable NAV of that scheme.</p> <p>The provision of “Minimum Application Amount” specified in the SID of respective Target Scheme will not be applicable for IDCW Transfer facility.</p>
Allotment	<p>All Applicants whose cheques towards purchase of Units have realised will receive a full and firm allotment of Units, provided also the applications are complete in all respects and are found to be in order.</p>

For applicants applying through 'APPLICATIONS SUPPORTED BY BLOCKED AMOUNT (ASBA)', on allotment, the amount will be unblocked in their respective bank accounts and account will be debited only to the extent required to pay for allotment of Units applied in the application form.

The AMC shall allot units within 5 Business Days from the date of closure of the NFO period.

The Trustee retains the sole and absolute discretion to reject any application, subject to SEBI Regulations.

Applicants under each of the respective Plan(s) offered under the Scheme will have an option to hold the Units either in physical form (i.e. account statement) or in dematerialized form.

Dematerialization

The Applicants intending to hold the Units in dematerialized mode will be required to have a beneficiary account with a Depository Participant of the NSDL/CDSL and will be required to mention in the application form DP's Name, DP ID No. and Beneficiary Account No. with the DP at the time of purchasing Units during the NFO of the respective Plan(s). The Units allotted will be credited to the DP account of the Unit holder as per the details provided in the application form. The statement of holding of the beneficiary account holder for units held in demat will be sent by the respective DPs periodically.

It may be noted that trading and settlement in the Units of respective Plan(s) over the stock exchange(s) (where the Units are listed) will be permitted only in electronic form.

If the Unit holder desires to hold the Units in a Dematerialized / Rematerialized form at a later date, the request for conversion of units held in Account Statement (non demat) form into Demat (electronic) form or vice versa should be submitted along with a Demat/Remat Request Form to their Depository Participants.

(a) The unit holders would have an option to hold the units in demat form in addition to the account statement as per the current practice.

(b) unit holders who wish to trade in units would be required to have a demat account

(c) Application form shall be modified to provide for demat account details and other details to enable exercise of the option as detailed above.

However, the Trustee / AMC reserves the right, subject to SEBI Regulations, to change the dematerialization / rematerialization process in accordance with the procedural requirements laid down by the Depositories, viz. NSDL/ CDSL and/or in accordance with the provisions laid under the Depositories Act, 1996.

	All Units will rank pari passu, among Units within the same Option in the Scheme concerned as to assets, earnings and the receipt of IDCW distributions, if any, as may be declared by the Trustee.
Refund	If application is rejected, full amount will be refunded within five business days of the closure of New Fund Offer Period or within such period as allowed by SEBI. If refunded after the time period stipulated under the Regulations, interest @ 15% p.a. for delay period will be paid and charged to the AMC.

Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and Services Tax (wherever applicable, as per existing rates), operating expenses, etc.
- b. The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan where the concerned investor has actually invested in.

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

In case of the units are held in dematerialized (demat) form, the statement of holding of the beneficiary account holder will be sent by the respective Depository Participant periodically.

CAS for investors having Demat account:

	<ul style="list-style-type: none"> • Investors having MF investments and holding securities in Demat account shall receive a single Consolidated Account Statement (CAS) from the Depository. • Consolidation of account statement shall be done on the basis of Permanent Account Number (PAN). In case of multiple holding, it shall be PAN of the first holder and pattern of holding. The CAS shall be generated on a monthly basis. • If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within fifteen days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis. • In case an investor has multiple accounts across two depositories, the depository with whom the account has been opened earlier will be the default depository. <p>The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations.</p> <p>However, the AMC reserves the right, subject to SEBI Regulations, to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).</p>
Transaction Charges	<p>Pursuant to paragraph 10.5 of the Master circular the transaction charge per subscription of Rs.10,000/- and above may be charged in the following manner:</p> <ol style="list-style-type: none"> a. The existing investors may be charged Rs.100/- as transaction charge per subscription of Rs.10,000/- and above; b. A first time investor may be charged Rs.150/- as transaction charge per subscription of Rs.10,000/- and above. <p>There shall be no transaction charge on subscription below Rs. 10,000/- and on transactions other than purchases/ subscriptions relating to new inflows.</p> <p>However, the option to charge “transaction charges” is at the discretion of the distributors subject to SEBI Regulations. Investors may note that distributors can opt to receive transaction charges based on ‘type of the Scheme’. Accordingly, the transaction charges would be deducted from the subscription amounts, as applicable.</p> <p>Transaction charges shall also be deducted on purchases/subscriptions received through non-demat mode from the investors investing through a valid ARN holder i.e. AMFI Registered Distributor (provided the distributor has opted-in to receive the transaction charges) in respect of transactions routed through Stock Exchange(s) platform viz. NSE Mutual Fund Platform (“NMF-II”) and BSE Mutual Fund Platform (“BSE STAR MF”).</p>

	<p>The aforesaid transaction charge shall be deducted by the Asset Management Company from the subscription amount and paid to the distributor, as the case may be and the balance amount shall be invested in the relevant scheme opted by the investor.</p> <p>Transaction Charges shall not be deducted if:</p> <ul style="list-style-type: none"> • Purchase/Subscription made directly with the fund through any mode (i.e. not through any distributor/agent). • Purchase/ subscription made in demat mode through stock Exchange, irrespective of investment amount. <p>CAS/ Statement of account shall state the net investment (i.e. gross subscription less transaction charge) and the number of units allotted against the net investment.</p>
<p>Facilitating transaction in Mutual Fund schemes through the Stock Exchange Infrastructure</p>	<p>SEBI vide its Circular no. CIR/MRD/DSA/32/2013 dated October 04, 2013, and CIR/MRD/DSA/33/2014 dated December 09, 2014 had permitted mutual fund distributors to use recognised stock exchanges' infrastructure to purchase and redeem mutual fund units directly from Mutual Fund / Asset Management Companies.</p> <p>Subsequently, SEBI vide its Circular no. SEBI/HO/MRD/DSA/CIR/P/2016/113 dated October 19, 2016 allowed SEBI Registered Investment Advisors (RIAs) to use infrastructure of the recognised stock exchanges to purchase and redeem mutual fund units directly from Mutual Fund/ Asset Management Companies on behalf of their clients, including direct plans.</p> <p>In order to further increase the reach of this platform, it has been decided to allow investors to directly access infrastructure of the recognised stock exchanges to purchase and redeem mutual fund units directly from Mutual Fund/ Asset Management Companies.</p>
<p>Bank Account Details</p>	<p>As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unit-holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Scheme retains the right to withhold the redemption until a proper bank mandate is furnished by the Unit-holder and the provision with respect of penal interest in such cases will not be applicable/ entertained.</p> <p><u>Bank Mandate Requirement</u></p> <p>For all fresh purchase transactions made by means of a cheque, if cheque provided alongwith fresh subscription/new folio creation does not belong to the bank mandate opted in the application form, any one of the following documents needs to be submitted.</p> <ol style="list-style-type: none"> 1. Original cancelled cheque having the First Holder Name and bank account number printed on the cheque. 2. Original bank statement reflecting the First Holder Name, Bank Account Number and Bank Name as specified in the

	<p>application.</p> <ol style="list-style-type: none"> 3. Photocopy of the bank statement duly attested by the bank manager/ authorized personnel with designation, employee number and bank seal. 4. Photocopy of the bank statement/passbook/cheque duly attested by ICICI Prudential Asset Management Company Limited (the AMC) branch officials after verification of original bank statement/passbook shown by the investor or their representative. 6. Confirmation by the bank manager with seal, designation and employee number on the bank's letter head confirming the name of investor, account type, bank branch, MICR and IFSC code of the bank branch. The letter should not be older than 3 months. <p>This condition is also applicable to all purchase transactions made by means of a Demand Draft. In case the application is not accompanied by the aforesaid documents, the AMC reserves the right, subject to SEBI Regulations, to reject the application. Also, the AMC will not be liable in case the redemption/IDCW proceeds are credited to wrong account in absence of above original documents.</p> <p>In case the bank account details are not mentioned or found to be incomplete or invalid in a purchase application, then the AMC may consider the account details as appearing in the investment amount cheque and the same shall be updated under the folio as the payout bank account for the payment of redemption/IDCW amount etc. The aforementioned updation of bank account shall however be subject to compliance with the third party investment guidelines issued by Association of Mutual Funds in India (AMFI) from time to time.</p> <p>The AMC reserves the right to call for any additional documents as may be required, for processing of such transactions with missing/incomplete/invalid bank account details. The AMC also reserves the right to reject such applications subject to SEBI Regulations.</p>
Pledge/Lien	In case of pledged units, the parties to the pledge shall report the details to the Registrar after the suspension of trading but prior to maturity.

Other requirements/processes	<p>Transactions without Scheme/Option Name In case of fresh/additional purchases, if the name of the Scheme/Plan on the application form/transaction slip differs from the name on the Cheque/Demand Draft, then ICICI Prudential Asset Management Company Limited (the AMC) will process the application and allot units at the applicable Net Asset Value, under the Scheme/Plan which is mentioned on the application form/transaction slip duly signed by the investor(s). The AMC reserves the right to call for other additional documents as may be required, for processing such transactions. The AMC also reserves the right to reject such transactions, subject to SEBI Regulations.</p> <p>The AMC thereafter shall not be responsible for any loss suffered by the investor due to the discrepancy of a Scheme/Plan name mentioned in the application form/transaction slip and Cheque/Demand Draft.</p> <p>In case of purchases, if the Scheme name is not mentioned on the application form/transaction slip, then the units will be allotted under the Plan mentioned on the Cheque/Demand Draft. The Plan/Option that will be considered in such cases if not specified by the customer will be the default option of the Plan as per the SID.</p>
	<p>Multiple Requests In case an investor makes multiple requests in a transaction slip i.e. switch and change of address or switch and change of bank mandate or any combination thereof, but the signature is appended only under one such request, then the AMC reserves the right, subject to SEBI Regulations to process the request under which signature is appended and reject the rest where signature is not appended.</p>
	<p>Folio(s) under Lien The investors, through person/entity/bank/financial institution in whose favour the lien has been marked, may request the AMC to create a lien on the folios held by the investors. The AMC shall process the lien request only upon necessary validations. In case of any redemption by the investor during the lien, the redemption request would be rejected. In case the person/entity/bank/financial institution, in whose favour the lien has been marked, enforces/invokes a lien, the proceeds of redemption may be paid to such person/entity/bank/financial institution.</p>
	<p>Overwriting on application forms/transaction slips In case of corrections/overwriting on key fields (as may be determined by the AMC) on the application forms/transaction slips, the AMC reserves the right to reject the application forms/transaction slips in case the investor(s) has(ve) not countersigned in each place(s) where such corrections/overwriting has(ve) been made.</p>

	<p>Consolidation of Folios In case an investor has multiple folios, the AMC reserves the right, subject to SEBI Regulations, to consolidate all the folios into one folio, based on such criteria as may be determined by the AMC from time to time.</p>
	<p>Seeding of Aadhaar number Please refer to Statement of Additional Information available on website www.icicipruamc.com</p>
	<p>Communication via Electronic Mail (e-mail) It is hereby notified that wherever the investor(s) has/have provided his/their e-mail address in the application form or any subsequent communication in any of the folio belonging to the investor(s), the Fund/AMC reserves the right, subject to SEBI Regulations, to use e-mail as a default mode to send various communication which include account statements for transactions done by the investor(s).</p> <p>The investor(s) may request for a physical account statement by writing or calling the Fund's Investor Service Centre/ Registrar & Transfer Agent. In case of specific request received from investor(s), the Fund shall endeavour to provide the account statement to the investor(s) within 5 business days from the receipt of such request.</p>
<p>Non Acceptance/Processing of Purchase request(s) due to repeated Cheque Bounce</p>	<p>With respect to purchase request submitted by any investor, if it is noticed that there are repeated instances of two or more cheque bounces, the AMC reserves the right, subject to SEBI Regulations, to not accept/allot units for all future purchase of such investor(s).</p>
<p>Restriction on fresh purchases/additional purchases/switches in any Schemes of ICICI Prudential Mutual Fund</p>	<p>As per requirements of the U.S. Securities and Exchange Commission (SEC), persons falling within the definition of the term "U.S. Person" under 'Regulation S' promulgated under the Securities Act of 1933 of the United States, as amended, and corporations or other entities organised under the laws of the U.S. are not eligible to invest in the schemes and apply for subscription to the units of the schemes, except for lump sum subscription, systematic transactions and switch transactions requests received from Non-resident Indians/Persons of Indian origin who at the time of such investment, are present in India and submit a physical transaction request along with such documents as may be prescribed by ICICI Prudential Asset Management Company Limited (the AMC)/ICICI Prudential Trust Limited (the Trustee) from time to time.</p> <p>The AMC shall accept such investments subject to the applicable laws and such other terms and conditions as may be notified by the AMC/the Trustee. The investor shall be responsible for complying with all the applicable laws for such investments.</p> <p>The AMC reserves the right, subject to SEBI Regulations, to put the transaction requests on hold/reject the transaction request/reverse allotted units, as the case may be, as and when</p>

	<p>identified by the AMC, which are not in compliance with the terms and conditions notified in this regard.</p> <p>However, existing investments will be allowed to be redeemed.</p>
Reversal of cheque(s)	<p>Where the units under any scheme are allotted to investors and cheque(s) given by the said investors towards subscription of units are not realised thereafter or where the confirmation from the bankers is delayed or not received for non-realisation of cheque(s), the Fund reserves the right to reverse such units.</p>
Multiple Bank accounts	<p>The unit holder/ investor can register multiple bank account details under its existing folio by submitting separate form available on the website of the AMC at www.icicipruamc.com. Individuals/HuF can register upto 5 different bank accounts for a folio, whereas non-individuals can register upto 10 different bank accounts for a folio.</p>

D. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the valuation policy and procedures of the Fund, provided in Statement of Additional Information (SAI). The NAVs of the fund shall be rounded off up to four decimals.

NAV of units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No. of Units outstanding under the Scheme}}$$

The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Illustration on computation of NAV:

If the net assets of the Scheme are Rs.10,45,34,345.34 and units outstanding are 10,000,000, then the NAV per unit will be computed as follows:

$$10,45,34,345.34 / 10,000,000 = \text{Rs. } 10.4534 \text{ p.u. (rounded off to four decimals)}$$

The NAV will be calculated as of the close of every Business Day of the respective Scheme. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

IV. FEES AND EXPENSES

This section outlines the expenses that will be charged to the schemes.

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

No New Fund Offer Expenses will be charged to the Scheme. The NFO expenses for launch of scheme will be borne by the AMC.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated the following percentage of the daily net assets of the Scheme which will be charged to the Scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund. The mutual fund would update the current expense ratios on the website at least three working days prior to the effective date of the change. Investors can refer <https://www.icicpruamc.com/Downloads/total-expense-ratio.aspx> for Total Expense Ratio (TER) details.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.

The Scheme can charge expenses within overall maximum limits prescribed under SEBI (MF) Regulations, without any internal cap allocated to any of the expense heads specified in the above table.

The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the Scheme will bear. The above expenses may increase/decrease as per actual and/or any change in the Regulations.

These estimates have been made in good faith as per information available to the Investment Manager based on past experience.

Types of expenses charged shall be as per the SEBI (Mutual Funds) Regulations, 1996.

The above table excludes additional expenses that can be charged towards: i) 30 bps for gross new inflows from retail investors from specified cities and ii) Goods and Services Tax on investment management and advisory fees. The same is more specifically elaborated below.

At least 2 basis points on daily net assets shall be annually set apart for investor education and awareness initiatives. The same shall be within limits specified under Regulation 52 of the SEBI (Mutual Funds) Regulation.

Pursuant to paragraph 15.10 of Master Circular, SEBI (Mutual Funds) Second Amendment Regulations, 2012 and SEBI (Mutual Funds) (Fourth Amendment) Regulations 2018, following additional costs or expenses may be charged to the scheme, namely:

(i) The AMC may charge Goods and Services Tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the Regulations, whereas Goods and Services Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations.

(ii) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from B30 cities or as may be specified by the Securities and Exchange Board of India, from time to time are at least –

- 30 per cent of the gross new inflows from retail investors from B30 cities into the scheme, or;
- 15 per cent of the average assets under management (year to date) of the scheme,

whichever is higher;

Provided that if inflows from retail investors from B30 cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from retail investors from B30 cities;

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

For above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction.

Note: SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI letter dated No. 35P/ MEM-COR/ 85-a/ 2022-23 dated March 02, 2023 has directed AMCs to keep B-30 incentive structure in abeyance with effect from March 01, 2023 till further notice.

Any payment towards brokerage and transaction cost, over and above the said 12 bps and 5bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio as prescribed under regulation 52(6A)(a) of the SEBI (Mutual Funds) Regulations, 1996. Goods and Services Tax on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 on Total Expense Ratio (TER) and performance disclosure for Mutual Fund.

Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

The following is an illustration of the impact of expense ratio on the scheme's returns:

9. The Bank received a show cause notice dated November 21, 2022 from RBI under Sections 35, 35A, 46 and 47A of Banking Regulation Act, 1949 relating to non-compliance with RBI Know Your Customer (KYC) Directions, 2016, for one account, based on a high value fraud reported by a bank. The Bank submitted its response to RBI on December 09, 2022. RBI through letter dated January 30, 2023 informed that they have dropped the charges against the Bank and hence the matter stands closed
10. The Bank has received show cause notice dated February 17, 2023 from RBI under Sections 35, 35A, 46 and 47A of the Banking Regulation Act, 1949- Non-compliance with the statutory provisions and the Reserve Bank of India (RBI) directions observed during statutory inspections with reference to financial position at March 31, 2020 and March 31, 2021. The SCN highlights four specifically observed acts/omissions leading to stated contravention of directions issued by RBI. The Bank has submitted its response to RBI on March 10, 2023
11. Reserve Bank of India (RBI) in December 2020 issued a Show Cause Notice (SCN) for continued operations in InstaSave Salary accounts despite aggregate balances exceeding permissible limits. Subsequently, in May 2021 RBI has cautioned the Bank to be careful in future in the matter.
12. Financial Intelligence Unit – India (FIU-IND), in exercise of its powers u/s 13(2) of the Prevention of Money Laundering Act (PMLA) 2002, had imposed penalty of ₹ 1.4 million on the Bank in February 2015, for not detecting and reporting attempted suspicious transactions for the incidents concerning media sting. The Bank had filed an appeal against the said order with the Appellate Tribunal (Under the Prevention of Money Laundering Act, 2002). The Tribunal waived off the penalty and issued a warning in accordance with provisions of PMLA, 2002 in June 2017. The Tribunal's judgement was upheld by Hon'ble High Court of Delhi in September 2019 and Hon'ble Supreme Court of India in April 2021.
13. The Financial Intelligence Unit (FIU-IND) vide its order dated July 30, 2021 issued a warning under Section 13 of PMLA, 2002 for non-compliance with provisions of Section 12. The said warning was issued for failing to have an effective internal mechanism to detect and report complete information in respect of Cross Border Wire Transfer Reports. The FIU-IND in its order has also mentioned that resubmission of the entire cross border wire transfer data by the Bank according to the guidelines is a mitigating factor in favour of the Bank.
14. The Directorate of Enforcement (DOE) in March 2019, issued six Show Cause Notices (SCN) against ICICI Bank and certain other entities and persons alleging certain violations under Foreign Exchange Management Act, 1999 mainly

pertaining to the sale of foreign exchange travel cards to travellers.

For two SCNs, charges against ICICI Bank and its employee have been dropped. In rest of 4 SCNs, the Bank has filed an appeal against DOE order imposing penalty on them and their employee.

15. On October 03, 2022, ICICI Bank Limited's New York Federal Branch ("NY Branch") entered into a "Consent Order" with its federal banking supervisor, the Office of the Comptroller of the Currency ("OCC"), which requires the NY Branch to enhance certain processes in its Bank Secrecy Act/Anti-Money Laundering ("BSA/AML") program and establish and maintain an effective Sanctions Compliance program. The Consent Order did not involve any monetary penalty. The observations made by the OCC are restricted only to the NY Branch of ICICI Bank Limited ("ICICI Bank") which constitutes 0.61% of ICICI Bank's total assets as on June 30, 2022 and the Consent Order does not have a material adverse effect on its business, nor does the Consent Order restrict any of the NY Branch's existing activities, apart from requiring the corrective actions as specified under the Consent Order. The NY Branch is committed to taking all necessary and appropriate steps to address the aspects identified and implement the corrective actions as approved by the OCC.
16. The Bank had received a Show Cause Notice under section 40 of The Insurance Act, 1938 and clause 21 of The Guidelines on Licensing of Corporate agents issued vide circular no. 017/IRDAI / Circular / CA Guidelines/ 2005 Dated July 14, 2005 from Insurance Regulatory and Development Authority of India (IRDAI) on May 9, 2019 for receipt of payment in relation to administration support expenses from ICICI Prudential Life Company Ltd during FY2016 in violation of Insurance laws. The Bank submitted its response through letter dated May 17, 2019 stating that the payment was in line with applicable laws, properly disclosed in financial statements and was stopped w.e.f. April 1, 2017, i.e. post promulgation of new commission regulations. The Bank officials represented Bank's point of view during the personal hearing with IRDAI on January 29, 2020. The Bank has not received any further communication on the same.
17. The Bank has on May 22, 2020 received a Show Cause Notice under sub clause 1 of clause II of Schedule V under Regulation 28 of IRDAI (Registration of Corporate Agents) Regulations from Insurance Regulatory and Development Authority of India (IRDAI) subsequent to its onsite inspection between June 4 - 8, 2018 with regard to CA activities performed by the Bank. The Bank has submitted its response vide e-mail dated June 29, 2020. The Bank has received final order dated July 27, 2022 based on the reply and submissions made during hearing held on May 13, 2022. The order comprised of advisories & direction and no penalty was imposed.
18. The Reserve Bank of India has, by an order dated May 03, 2021, imposed a monetary penalty of Rs. 30 million on the Bank. This penalty has been imposed under the provisions of section 47 A (1)(c) read with sections 46 (4) (I) of the Banking Regulation Act, 1949 for shifting certain investments from HTM category to AFS category in May 2017. The Bank had transferred two separate categories of securities on two different dates from HTM to AFS in April and May of 2017, which it believed was permissible as per Master Circular on Prudential Norms for Classification, Valuation and Operation of Investment Portfolio by Banks dated July

01, 2015. RBI has held that the shifting of securities the second time in May 2017 without explicit permission was in contravention of RBI directions. The Bank has paid the penalty on May 14, 2021.

19. The Reserve Bank of India (RBI) has by an order dated December 13, 2021 (received by the ICICI Bank on December 15, 2021) imposed a monetary penalty of Rs. 3 million on the ICICI Bank (Bank) under the provisions of Section 46(4) (i) read with Section 47A (1) of Banking Regulation Act 1949 for non-compliance with certain directions issued by RBI on 'Levy of Penal charges on non-maintenance of minimum balance in savings bank accounts' dated November 20, 2014. The Bank was levying charge of Rs. 100/- plus a percentage of shortfall between the minimum average balance (MAB) required to be maintained and actual balance maintained in the saving account as agreed upon at the time of account opening. RBI has held that levy of charges for non-maintenance of MAB were not directly proportionate to the extent of the shortfall observed in the required MAB and actual balance maintained. The Bank has taken steps to align the charge levied for non-maintenance of MAB with the above direction of RBI effective from November 2021. The Bank has paid the penalty on December 23, 2021.

- 3) Details of all enforcement actions taken by SEBI in the last three years and/ or pending with SEBI for the violation of SEBI Act, 1992 and Rules and Regulations framed there under including debarment and/ or suspension and/ or cancellation and/ or imposition of monetary penalty/adjudication/enquiry proceedings, if any, to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel (especially the fund managers) of the AMC and Trustee Company were/ are a party. The details of the violation shall also be disclosed.

Details as specified in para 2.1 and 2.2 above shall form part of disclosure under this para.

- 4) Any pending material civil or criminal litigation incidental to the business of the Mutual Fund to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel are a party should also be disclosed separately.

1. As per the SEBI (Mutual Funds) Regulations, 1996, mutual fund schemes are permitted to invest in securitised debt. Accordingly, few schemes of ICICI Prudential Mutual Fund ("the Fund") had made investment in Pass Through Certificates (PTCs) of certain special purpose vehicles / securitisation trusts ("the Trusts"). The returns filed by few of these securitisation Trusts whose PTCs were held by the Fund were taken up for scrutiny by the Income Tax Authorities for Assessment Years 2007-08, 2008-09, 2009-10 and 2010-11. Arising out of this, the Income Tax Authorities had raised a demand on such Trusts. On failure to recover the same from the Trusts, Income Tax Authorities sent demand notices to the Fund along with other Mutual Funds as beneficiaries / contributors to such Trusts. The Fund in consultation with its tax & legal advisors has contested the applicability of such demand and got the attachment order vacated by Hon'ble High Court of Bombay. The Trusts on their part had contested the matter and the Income Tax Appellate Tribunal upheld their appeal and dismissed the contentions and all the cross-appeals filed by the Tax Authorities. The Tax Authorities have now filed an appeal with Hon'ble High Court on the matter.

- 5) Any deficiency in the systems and operations of the Sponsor(s) and/ or the AMC and/ or the Board of Trustees/Trustee Company which SEBI has specifically advised to be disclosed in the SID, or which has been notified by any other regulatory agency, shall be disclosed. – Nil

GENERAL INFORMATION

- **Power to make Rules**
Subject to the Regulations, the Trustee may, from time to time, prescribe such terms and make such rules for the purpose of giving effect to the Scheme with power to the AMC to add to, alter or amend all or any of the terms and rules that may be framed from time to time.
- **Power to remove Difficulties**
If any difficulties arise in giving effect to the provisions of the Scheme, the Trustee may, subject to the Regulations, do anything not inconsistent with such provisions, which appears to it to be necessary, desirable or expedient, for the purpose of removing such difficulty.
- **Scheme to be binding on the Unitholders:**
Subject to the Regulations, the Trustee may, from time to time, add or otherwise vary or alter all or any of the features of investment plans and terms of the Scheme after obtaining the prior permission of SEBI and Unitholders (where necessary), and the same shall be binding on all the Unitholders of the Scheme and any person or persons claiming through or under them as if each Unitholder or such person expressly had agreed that such features and terms shall be so binding.

Notwithstanding anything contained in this Scheme Information Document, the provisions of the SEBI (Mutual Funds) Regulations, 1996 and the guidelines there under shall be applicable.

Note: The Scheme under this Scheme Information Document was approved by the Directors of ICICI Prudential Trust Limited at their meeting held on December 21, 2023.
